

B.J. Burns.

4th. March, 2010.

Committee Secretary,
Senate Finance and Public Administration References
Committee,
P.o. Box 6100,
CANBERRA. A.C.T. 2600.

Dear Sir/Madam,

WITHOUT PREJUDICE.

Re: INQUIRY INTO NATIVE VEGETATION LAWS, GREENHOUSE GAS
ABATEMENT AND CLIMATE CHANGE MEASURES.

The W.A. Government, both Labor and Coalition, have robbed me
the use of 6000 acres of freehold agricultural land, (out of
8000 acres)

My life's ambition has been destroyed by deceitful Politicians,
and Public Servants.

"Thou Shalt Not Steal".

I'm after compensation for production and land value 5000
croppable acres of wheatbelt country, Lake Grace and Jacup
districts

The lack of realistic offers from Bureaucrats in the era of
90's onward, is immoral. My lifetime earnings in order to
purchase, and set myself up have been greatly affected.
Compo in the order of \$3million + \$1 million loss of profit
or more, would be acceptable, as I could now get on with my
life, and help establish my family on the land as always
intended.

The Australian Commonwealth Government is implicated in my
ruined position, because they have profited in carbon credits
and esteem, under Kyoto agreement early 90's. My case is the
worst individual loss in W.A. and I consider it a creeping
Communitistic tactic as annunciated by Socialist Fabians, who
pack Government positions.

As things stand, I still have to work; can't get pension.
Both wife Shirley and myself should be enjoying life and
busying ourselves in helping our children's development, and
being involved with charitable work.

Yours faithfully,

PS: could you please give
me followup on any new
developments, as we did
submit to Productivity
Commission, and no followup.
Makes us wonder if Governments
are really genuine.

B.J. Burns.
