Dear Committee Secretary,

I would like to correct the record as there were some missing words and a mistake in my opening statement at today's COVID-19 public hearing.

The following paragraph in my opening statement should read:

At the same time, our latest figures indicate we have applied \$13.38 billion in Cash Flow Boost credits to 708,000 businesses and been a central point for 1.9 million approved applications for early release of super totalling \$16 billion from superannuation funds.

I have attached a corrected version of my statement.

Yours sincerely

Chris/Jordan AO
