The Senate Enquiry Into Supermarket Prices

I noted that following the Covid 19 Virus period, the retail price of Devondale Spreadable Dairy Soft Original 500g product increased from \$ 5.00 to \$ 7.50 at both Woolworths Supermarkets and Coles Supermarkets.

I noted this as one of the most significant price increases of a single staple product in one single increase following the Covid Virus period. It was an increase of 50% in the retail price.

Yours faithfully
