

Dear Sir/Madam

I'm really shocked by the new Capping Bill... It'll smash all my dreams and the peaceful life here in Australia...

I've struggled a lot to finish my study, to meet the requirements of the immigration policy, I've moved to the regional area, I bought my car, then my new house, and I've found full time job here, I get so much respect and thanks from my new job, and I've paid tax to this country every year. My little daughter enjoys her new school and I love this harmonious society.

I cannot understand: I respect and obey all Australian rules, I've contributed so much to this country, why now I will be told STOP to all my beautiful dreams and wishes on this land?
