Subject: Submission to the Joint Standing Committee on Electoral Matters

Dear Chair,

I call for the introduction of electronic rolls. That way once a person has voted they can not vote again in that election - assuming they have not already cast a postal vote. Once their name is removed from the system that is it. I think the requirement to produce photo ID is not the answer. A good number of electors will likely appear at the polling booth without photo ID. So will be unable to vote.

Yours sincerely,

Tim Leeder
