Dear Committee

Re: Public hearing on the 13 October 2025

I write to request a correction to Hansard.

During my evidence, I misspoke saying “overfunded” when I meant “underfunded”. I would be grateful if Hansard could be amended as follows:

“The Privacy Commissioner received only \$5million additional dollars over four years, in comparison to the eSafety Commissioner who received \$45 million dollars. This is an office that is already massively ~~over~~underfunded and is going to be playing a very important and key role given the state of our privacy legislation as Senator Shoebridge has mentioned many times.”

Yours sincerely
