Hi Josh,

Thank you for the question on notice.

The reference is indeed listed as number 7 on the reference list of AMSA's written submission to the inquiry. The text of the reference is as follows:

Scott K, Caldwell P, Barnes E, Barrett J. "Teaching by humiliation" and mistreatment of medical students in clinical rotations: a pilot study. MJA, 203(4)

The reference can also be found online [here](#).

While the reference details that up to 50% of students who experienced teaching by humiliation considered it useful for their learning, there is, unfortunately, no gendered breakdown of the results that the committee requested.

Kind Regards,

Elise
