

Correction: Information provided to Senate Economics Committee | Treasury Laws Amendment (Consumer Data Right) Bill 2019 [Provisions]

I am emailing in relation to information I provided to the Senate Economics Committee inquiry into the Treasury Laws Amendment (Consumer Data Right) Bill 2019.

In response to a question on engagement with Treasury after I had made a submission, I advised the Committee there had been no further engagement. It has now come to my attention there was some limited engagement with my staff, but I understand no change to the bill. Please let me know if you would like more information.
