

**Inquiry: Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill
2013.**

Make the submission public but withhold your name.

I agree with this proposed Bill.

Medicare should NOT be funding gender-selection abortion.

Favouring one sex against another is abhorrent in our Australian society, where both sexes are rightly valued as equal. Gender selection abortion directly opposes this normative and accepted belief in Australia, and it's community funding through medicare should be opposed and made illegal.
