

Hi dear Sir / Madam,

Subject: Migration Amendment (visa capping) Bill 2010

After reading all the submissions by others I would simply say I strongly oppose this bill.

As according to Australian Bureau of Statistics population of Australia on 5th July 2010 at 08:05:26 PM (Canberra time) is just 22,375,739 which is quite less as compare to other countries.

According to an analysis in July 2008,

Country	Land (Sq Km)	Population
Australia	7,686,850	20,601,000
Germany	357021	82,370,000
Spain	504782	40,491,000
Japan	377835	127,288,000

I respect Australia's sportsmanship. I like all sports especially Footy, Cricket and Soccer. Me and my Aussie friends we play soccer together every evening.

I run my own businesses here and I've Australian and international employees working for me. Whenever I see international students who are working for me in deep stress I personally feel very sorry.

Well no one can compel you; you can do whatever you want. Please think for long term before making any decision. If you wanna do something just catch illegal people and kick them out.

Thank you,
Bhajna Amli
