

Comparison Chart of Lyme Disease and Co-infections Symptoms

Back to coInfections	Starts with "Onset"	Temperature Disturbances	Cognitive Disturbances	Dental Disturbances	Digestive Disturbances	Ear Disturbances	Eyes Disturbances	Head-Neck Disturbances	Circulatory Disturbances
Borreliosis Lyme Disease My Lyme and coinfections now permanently gone!! Copyright © Do not copy without written permission.	-rash (sometime s) -Flu-like More symptom s here	9 Listed Symptoms -feels unregulated -Can not stand hot or cold temperatures. -Body temperature below 37C (98.6°F) -Ice cold body parts and patches -Unexplained sudden over-heating throughout body. -Unexplained chills -Unexplained sweats/fevers/feeling very hot. -Unexplained fevers	43 Listed Symptoms **Neuroborreliosis: -short term memory loss -Poor decisions - poor planning - impulsiveness -poor judgment -loss of ability for complex -Brain fog -Difficulty with multi-tasking. -Problems with letter or number reversals	5 Listed Symptoms -Difficulty chewing - pain in teeth -chronic gingivitis - receding gums -thinning enamel -Painful gums/jaw	23 Listed Symptoms **-disturbances with tongue, chewing, swallowing, esophagus, Stomach, abdomen, bowels, intestines, liver - Reluctance to go to school/work /going out to eat because of bouts of diarrhea.	5 listed Symptoms -Sound sensitivity -ear problems -pain from sound -ringing in ear -Decreased hearing in one or both ears. - Plugged ears. -Ears popping	25 listed Symptoms -Light sensitivity -Pain, pressure -drooping lids, etc. -Sudden blurred "foggy" vision. Double vision. - Increased floaters -Floating black specs - "Spots" before eyes -Looking through waviness/wigglyness, - redness. -Pressure in eyes -Dry eyes -Drooping of eyelids	33 listed Symptoms - Headaches, -stiff neck - confusion -fluid in head -Sharp pains -Numbness -tender areas - neuralgia's - red face -Light headedness, wooziness, feeling off balance -Twitching of facial muscles ,sensation of sharp facial pain, crawly feeling.	16 listed Symptoms -infection - inflammation of the heart valves, lining of the heart - extra beats -Stroke -Heart rate -blood pressure disturbances and more
Anaplasmosis	-Flu like rash (rare)	More symptoms here						-Sharp, knife-like, behind the eyes type of headache.	-Bleeding easily -heart
Babesiosis Babesia	-Gradual, nonspecific -Rash occasional	-chills -High Fevers -intermittent -drenching night sweats -malaise -low grade fever	More symptoms here	Dental problems, TMJ problems -Sudden pain within each tooth or entire jaw bones	-Loss of appetite - Nausea --Abdominal pain -weight loss -diarrhea -enlarged liver -swollen spleen -lower belly fat		-Eye problems -bloodshot eyes -sore eyes -sensitivity to light -Many, many more	-Headache -Neck stiffness -Sore throat or cough -pallor -Brain fog -jaundice	**heart problems - Tachycardia -Congestive heart failure -band pressure around the heart -low blood pressure More
Bartonellosis Bartonella List of Bartonella Infections here	-Flu-like same day as bite -rash	-prolonged fevers -hot flashes -cold extremities	- Inflammation of brain -Inflamed spinal cord -memory loss	More symptoms here	-Numerous GI track disorders -poor appetite -gastritis -lower abdominal	-pain from sound from brain inflammation -vision loss -eye infections -Red eyes -intense	**Many eye disorders -vision loss -eye infections -Red eyes -intense	-sharp frontal or top of head headaches -brain fog -dizziness -Loss of jaw	-Thickened blood -vein swelling - intravascular disease -broken veins - unexplained

					pain -anorexia - gastrointesti nal lesions -weight gain. -Liver disorder -Enlarged spleen -under right rib pain		pressure -Vision loss, blurred vision, light sensitivity, -eye infections -Pain behind the eyes - MANY	bone >infections of the brain	type of bruises, -spider veins >edocarditis - pulse -polyps in/around major organs -progressive anemia
<u>B. quintana</u> <u>Trench</u> <u>Fever</u>	- Relapsing Rash(fleeti ng) -Sudden high fevers			More symptoms here	liver and spleen enlargement		pain behind the eyes	severe headache	blood infection heart valve problems endocarditis
<u>Borrelia</u> <u>miyamotoi</u>	-Flu-like Rash (not often)	-chills -relapsing fever along with flu like symptoms		More symptoms here	vomiting			headache	
<u>Boutonneu</u> <u>se fever</u>	-Rash -Flu-like			More symptoms here	- Gastrointesti nal bleeding -enlarged liver - enlarged spleen		-Enlarged blood vessels in eyes	-Meningitis -Meningism- neck stiffness, intolerance of bright light, headache	-Heart problems
Brucellosis <u>Brucella</u>	- rash (rare) - Flu-like	-recurrent fevers - profuse sweating - night sweats	**Neurobruc ellosis Inflamed brain causes many symptoms; -impaired cognitive functions -memory loss - difficulty performing activities of daily living -speech difficulties Much More	More symptoms here	Gastric discomfort - colitis - constipation -nausea - diarrhoea -no appetite enlarged liver hepatitis C anemia enlarged spleen	-ringing in ear -hearing loss -pain from sound	** Many eye problems -Optic nerve inflammation - retinal detachment -conjunctivitis - posterior uveitis -eyeball inflammation - purpura, - maculopapular lesions -sudden loss of vision	-Tumors /abscesses -ischemic strokes -aneurysms, -seizure -subdural hemorrhage -pressure inside skull -cranial nerve palsies -unusually long headaches -Brucella meningitis	Endocarditis -Rapid heart rate
<u>Chlamydia</u> <u>Pneumonia</u>	.More symptom s here		- inflammation of the brain (encephalitis) -confusion -acute psychosis -aseptic meningitis			- inflammation of the eardrum	-double vision and decreased vision, eye infection	-Scratchy sore throat, laryngitis, -temporary paralysis, mainly in the face. - Persistent progressive Headache -dry cough	

<u>Colorado Tick Fever</u>	Flu like- (rare) a faint rash	-Sudden high fever	<u>More symptoms here</u>	-	sometimes: -Nausea, -vomiting -diarrhea, - abdominal pain - hepatitis.	-light sensitivity	-nasal congestion -severe headache 10%: meningitis or encephalitis	-rare pneumonitis -myocarditis
<u>Eastern tick-borne Rickettsiosis</u>	Flu-like rash	<u>More symptoms here</u>	-	-	-	-eye problems	headache	vasculitis
<u>Ehrlichiosis Ehrlichia</u>	flu-like rash (sometimes)	prolonged fever	<u>More symptoms here</u>	-	-upset stomach -nausea, -loss of appetite	-	-Sharp headaches -meningitis -cough -sore throat	-bleed easily -vasculitis -anemia
<u>Mycoplasma mycoides</u> <u>see Mycoplasma Pneumoniae</u>	-Very similar to chronic Lyme disease. - slow growing (Multisystemic) (lives within cells)	-night sweats -intermittent fevers	-memory loss -loss of concentration	<u>More symptoms here</u>	- gastrointestinal problems -nausea -diarrhea -bloating	-light sensitivity -visual disturbances -floaters -eye pain	-	-abnormal blood pressure -congestive heart failure
<u>Powassan virus</u>	-Flu-like no rash	-Fever shivering	-Altered consciousness - Confusion - agitation -Personality changes Hallucinations more	-	-vomiting anorexia, nausea and diarrhea -liver abnormalities	<u>More symptoms here</u>	severe headache -stiff neck tick-borne encephalitis-	-
<u>Coxiella burnetii Q Fever</u>	-No rash -Flu-like	-	** <i>Symptoms similar to those of Lyme disease.</i>	-	enlarged liver inflamed liver	<u>More symptoms here</u>	meningitis - encephalitis	Valvular damage endocarditis -50%: abnormal liver function
<u>Rickettsia rickettsii Rocky Mountain Spotted Fever</u>	-Flu-like -About a week later a rash develops	<u>More symptoms here</u>	-	-	- gastrointestinal problems -10% will produce stools positive for occult blood.	-light sensitive	headache untreated: dizziness aphasia deafness -meningitis	vasculitis can lead to myocarditis -10%: jaundice congestive heart failure
<u>STARI</u>	-Rash -Flu-like	<u>See Lyme disease symptoms</u>	<u>See Lyme disease symptoms</u>	<u>More symptoms here</u>	- Similar to Lyme symptoms	- Similar to Lyme symptoms	- Similar to Lyme symptoms.	headache stiff neck - Similar to Lyme symptoms

<u>Tick Paralysis</u>	neurotoxin during a s blood released meal cause by tick paralysis salivary glands	.More symptoms here	.	.	.	.	.	.
<u>Tick-borne encephalitis</u>	.	.	.	.	.	.	.	.
<u>Tickborne Relapsing Fever</u>	Flu-like no rash	Drenching sweats -cycles of high fever,f	.More symptoms here	.	-nausea -vomiting -anorexia -Liver and spleen	.	-conjunctivitis -headache -facial palsy -meningitis	- Myocarditis -blood pressure
<u>Francisella Tularencis Tularemia</u>	-Flu-like -Rash	-fever -exhaustion and	More symptoms here	.	-nausea -vomiting -diarrhea, -abdominal pain -intestinal ulceration's -weight loss	.	-inflamed eyes often with a discharge. -sore throat -mouth sores -rare; meningitis	.

Note: There may be more or less symptoms depending on the strain of pathogen, an individuals immune seystem, complications, and other infections present in the body.

	Immune/Endocrine Disturbances	Locomotor Disturbance	Psychiatric Disturbances	Neurologic Disturbances	Reproductive Disturbances	Respiratory Disturbances	Severe Sleep Disturbances	Skin Disturbances	Urinary Disturbances
<u>Borelliosis</u>	12 listed	33 listed	22 listed	30 listed	12 listed	6 listed	9 listed	14 listed	5 listed
<u>Lyme disease</u>	-Immune dysfunction - Thyroid, Adrenal -Spleen -lymphathic system - Inflammation -Edema -candida(Sugar craving,Allergies) - Enlarged lymph nodes	-Arthritis -Pains of all types in joints, tendons, ligaments, bones, muscles, spine. -Muscle cramps /spasms, - weakness or partial paralysis of limbs - coordination n disturbanc e	- depression -explosive irritability - anxiety/distr ess -rage - anger - abnormal sadness - frustration -paranoia -Racing & obsessive thoughts -Mimics most every psychiatric disorder	- Hypersensit ivity -Abnormal brain waves - twitching - unexplaine d shaking -jerking, - Numbness, -Difficulty walking - poor balance - weakness -partial paralysis - Peripheral Neuropathy -Restless legs	- Testicular pain -Menstrual disturbance s -pelvic pain, - reproductiv e disturbance s -Swollen testicles -Loss or increase of sex drive - Unexplaine d breast or nipple pain/ discharge - Reproductio n problems	-Air hunger -non-productive cough -laboured breathing, or gasping - Respiratory infections, asthma, pneumonia, pleurisy, cough, chest pains. - Can't get a full breath. -When talking suddenly running out of air.	-Fatigue -difficulty falling or staying asleep. -Unable to get into the deep normal sleep -Being awakened by sudden severe arthritic pains throughout entire body that is excruciating , dramatic, and feels like you are on deaths door and most is gone by the next morning.	-Skin blotches - rashes -tickling on the skin -Nodules -Fingernail changes - Numbness - Pinna and ear lobes have varying shades of red. -Tender spots -Fingernail changes -Burning skin -itchiness	-Bladder problems - kidney disturbance s. - Neurogenic bladder -Bladder pain relieved by urination. - Children bed wetting - urinary tract infections
<u>Anaplasmosis</u>	-Inflammation, -Fungal infections	-muscle pains	.	-Peripheral neuropathy	.	- Respiratory problems >lung	.	-Rash (rare) -Skin rashes	>kidney,

encephalitis s Tickborne Relapsing Fever						
	malaise	-myalgias .	-seizures -cranial nerves problems (especially facial palsy) -coma.	- spontaneous s abortion -premature birth -neonatal death	-dry cough	-Fatigue .
	Francisella Tularencis Tul aremia	Rash -Swollen/ painful lymph glands	-stiff joints .		>lungs -pneumonia	-extreme fatigue *Skin ulcer at the bite site
