BURRADOO NSW 2576

The **nbn**™ access network
is on its way to you

Hello,

19 February 2018

Look out for your **nbn**™ connect kit

We're working hard to complete the **nbn**™ access network in your area. We will send an **nbn**™ connect kit in the mail when it is available at your home or business.

You can then contact a phone or internet provider to switch your landline phone and internet services.

The **nbn**™ access network is for your phone too

The **nbn**™ access network will replace most existing landline phone and internet networks in your area from 10 August 2018. This means in order to keep landline phone and internet services working, you will need to switch to a plan

Thank you for your patience

If you would like more information please phone us on 1800 687 626.

For more information
call 1800 687 626 or
visit nbn.com.au

Regards,

Brad Whitcomb
Chief Customer Officer

1. Services provided over the **nbn**™ access network will be replacing phone and internet services provided over most of the existing landline networks, including copper and the majority of HFC networks within the fixed line footprint. Services provided over existing fibre networks (including in-building, health and education networks) and some special and business services may not be affected. To find out if your services will be affected, please contact your current phone or internet provider. If your out-of-home equipment hasn't been installed by the time you receive the 'nbn'™ connect kit, your preferred provider will arrange this for you. For more information, visit www.nbn.com.au, switchoff or call 1800 687 626. © 2017 nbn co limited. 'nbn', 'bring it on' and the Aurora devices are trade marks of nbn co limited ABN 86 136 533 741.
