

Funding for A.B.C television and radio

What is happening to A.B.C. television? We are getting reruns of old English programmes. I need the ABC to be funded and rebuilt so it has strong specialist units to produce high levels of high quality and genuinely local in-house programming in all program genres on radio, TV and online. I rely on the ABC to give me the quality and diversity of programmes that are just NOT available on the commercial stations.

Yours sincerely,
Joan Aitkin
