

My Name is Don Raffaele I live on the far north coast of N.S.W Byron Bay my profession is real estate photographer.

I am writing this email about the new drone laws that have come into effect on the 29th September 2016.

As a responsible professional, I support the decision made by the Government appointed body,(C.A.S.A) and I don't believe that people outside of C.A.S.A have the knowledge or understanding to oppose decisions made by a Government body that has provided Australia with an aviation record that is recognized world wide. We in the Industry have been patiently waiting for the new laws to take effect, this decision by C.A.S.A I believe has been carefully considered over many years.

Regards Don Raffaele
