

To whom it concerns,

Please help those of us who suffer every day. Mine is a 24/7 extreme pain story, burning all over, eyes head, legs, back, hands, feet etc, no sleep.. torment. I had a spinal cord tumour removed leaving me permanently disabled. No legal drugs work. Tried everything since 1995, I suffer enough without the distress that this drug is illegal. I need help please, my life is one of constant pain, everyday. Plz help. Please. I tried this medical cannabis, it works quickly and very well. I was taken to court and once charged trying to manage my pain issues. Why am I treated as a criminal if I treat my pain.

There are so many others in need, save us from our distress.

SOS.
