## Senate transvaginal mesh implants inquiry opportunities to speak to the committee

The Senate Community Affairs Committee will begin holding public hearings for its inquiry into transvaginal mesh implants on Thursday 3 August in Melbourne and on Friday 25 August 2017 in Perth. The committee will hear evidence from private individuals, medical practitioners, academics, advocates and support groups as well as relevant government agencies.

"It is very important for the committee to hear directly from women who have had this surgery and the impact this has had on their lives, so the committee will allocate time for this at each of its public hearings", said committee Chair, Senator Rachel Siewert.

Anyone who wishes to make a short, three minute statement to the committee at one of its public hearings about their experience should email the committee secretariat to register their interest: [community.affairs.sen@aph.gov.au](mailto:community.affairs.sen@aph.gov.au).

Opportunities to speak will be allocated in the order in which they are received.

Committee hearings are broadcast live and a written transcript of each hearing is published on the inquiry website.

"If anyone would prefer to speak to the committee in private, they should let the secretariat know this when they register", Senator Siewert said.

The committee plans to hold further hearings and will publish the dates for these on the inquiry website.

"The committee recognises that not everyone who would like to will be able to attend a public hearing and speak to the committee", said Senator Siewert. "Hundreds of people have provided the committee with written personal accounts and these are proving very valuable in assisting the committee to understand the matters it is looking at in this inquiry", she said.

If you are unable to attend the committee's hearings you can listen to the proceedings on-line: [http://www.aph.gov.au/Watch\\_Read\\_Listen](http://www.aph.gov.au/Watch_Read_Listen)
