Your submission

Please provide a brief summary of your experience and any relevant issues. Your submission should respond to one or more of the committee's Terms of Reference

I am the Co-Founder of Divorce Justice, an online dispute resolution technology service that seeks to change family law for the better.

The family law/divorce system is too complicated, too confrontational and too costly.

Too many close family and friends, and their children (and our own) have suffered because the family law system prevents a reasoned, fair and just outcome. A broken marriage can so often lead to broken finances, then a broken home, leaving children more vulnerable to abuse, trafficking and child prostitution.

The Family Law and Family Courts are not "fit for purpose"

We want to help change this broken system – we believe we can offer the following services to radically re-shape the Family Law system:

- 1. We want to offer online uncontested divorce for free*
- 2. We want to use an Online Dispute Resolution service and use Artificial Intelligence (Ai) to help couples solve contested issues, quickly, easily and cheaper than using lawyers. We want to offer this for a flat monthly fee, thus replacing the unpredictable billable hours model.*
