

Your name and current visa status :

Your date of application for your permanent visa : probably march 2011

Your nominated occupation : HR

State how much money you have spent on your Australian training for the purpose of this occupation as well as additional costs associated with the visa application: spent approx. 70,000 to 80,000 in total...

State how much tax you paid in Australia since arrival. :5,000

State how this will effect your future dreams and aspirations and attitude to Australia in the future if your visa is ceased after you have effectively met the legal requirements for a grant.

I came to Australia with a dream that i will be able to live in this country without being scared for my life, being a minority and coming from an Islamic country you cant imagine how it is living in such a country, living in Australia has given me the freedom to wear what i want and as well as the freedom to walk on the streets, i am so passionate about what i am studying and about working in HR. If this bill is passed through it will shatter my dream ...which means i'll have to go back to Pakistan, being a minority i know i wont get the job and the position i want, my freedom of speech would be taken away from me, wont be able to wear what i want

Am just making a point here that there are alot of skilled and educated people coming to Australia in the hopes for a better future....**DO NOT TAKE THAT AWAY FROM US....**the freedom to live in a country with Equal opportunities..

You let asylum seekers come in Australiasome or even most of these people cant say a word in English and yet they are granted Permanente Residency and Citizenship ...i am not against it ...its just not fair...

i love Australia and consider it my home ..honestly i feel very safe here ...a land of oportunites
