Subject: Submission to the Inquiry into the National Disability Insurance Scheme Bill 2012
Date: Thursday, 17 January 2013 7:49:15 PM

Please consider this email a formal submission by me to the Senate Standing Committee on Community Affairs Inquiry into the National Disability Insurance Scheme Bill 2012.

The current disability system has many problems that need to be addressed.

Because without the NDIS in place, there are no vital services that we can rely on

The main features of the NDIS that will make a difference to the community are:

Ensure support and equipment is available when needed, People with a disability can choose the types of support to use, Better access to mainstream support and services, More opportunities to participate in the community, More employment of people with disability and less reliance on social welfare, More rights for people with a disability, People with a disability can plan their lives and pursue their goals and dreams

The most important services for the NDIS to provide are:

Therapy and allied health services, Equipment and home/vehicle modifications, Recreation and community access

I support the introduction of the NDIS.

Look, having an NDIS in place, will change the whole disability sector for the better

I agree for my submission to be made public

Regards,

Mr David Brazel
