Senate Community Affairs Committee

Senate Inquiry Re:

The Social and Economic Impact of Rural Wind Farms

The following is a submission for the above inquiry

My submission consists of:

A Cover Page plus: six separate parts dealing with different aspects of the above issue.

The Parts are:

Part 1: Health Effects from Turbines (14 pages)

Part 2: Fire Risks in the country (8 pages)

Part 3: Impact on lifestyles and wildlife (22 pages)

Part 4: Impact on Property Values (18 pages)

Part 5: Impact on Community Unity (19 pages)

Part 6: Setbacks of homes from turbines (14 pages)

Thank you for the opportunity to hand in this submission to you. I apologise if I have been too wordy. I think this is one of the most important issues facing Australia, and we need to stop to reevaluate what is going on with wind farms.

Thank you,

Renate Metzger
