

**Name:** MAUREEN BIRD

**Submission:**

The Newspaper industry is our main point for gaining information about how our Taxpayers money is used, the articles written need to be true and balanced. The articles should not be based on the Political belief of the owners of the newspapers, if they print untruthful articles then there should be criminal charges against the owners and editors to deter lies being printed and misinformation being distributed. We all are required to live under the Laws of Australia and the same should be applied to the news and media industries.
