

Dear Sirs,

I urgently request further intervention into ASIC deception and lies regarding LOW DOC BANK FRAUDS.

It is vital to see a Consumer Protection Agency. It is time to now judge the appalling performance of ASIC and act !

I believe you are already aware there is a problem with ASIC.

My Questions are as follows :

1. What ought ASIC have done in regards to investigation into banks and brokers ?
2. What has ASIC done to investigate handwriting of credit assessors and investigate the Service Calculator ? Who designed and engineered it ?
3. Recommendation by ASIC for me to seek other legal representation was wrong. I am a Pensioner and could not afford it. Disappointed big time with ASIC !!!
4. I had sent all copies of correspondence to assist ASIC with investigation – A BIG WASTE OF TIME !!!

My Story is as Follows:

- I am a Disability/Aged Pensioner
- I was drawn into an evil bank trap
- I was deceived by the broker with his false information
- Unaware of what I was signing
- Broker did not explain how Low Doc Loan works.
- Broker falsified information after I left the office, and he then signed me up with Westpac.
- Westpac did not require proof of self employment (which is false information – provided by broker)
- I was on a Disability Pension. Details on load stated I earnt more than I did, and self employed of which I never have been
- Loan amount showed 2 different amounts, with a bigger increase
- My home is now rented out to help pay the loan to Westpac
- I am living in a 3m x 3m bedroom for 2 years at my daughters home and her family.
- All my own furniture is placed into storage at an extra monthly rental cost to myself
- I am 71 year old pensioner on an aged pension without a home
- Please bring this ASIC situation quickly to a head

-There seems no end to this !!

Yours sincerely
