Dear Committee Secretary,

With regard to the Economics Legislation Committee Review of the Provisions of the Treasury Laws Amendment (National Housing and Homelessness Agreement) Bill 2017. The Central Highlands Homelessness Alliance would like to support and endorse the Council to Homeless Persons (Vic) submission to this review. As key responders to homelessness and housing difficulty in the central highlands, we welcome improved transparency and efficiency between Federal and State Government representatives in the critical area of homelessness and housing.

However, we believe that the relevant Bill needs further refinement to clarify roles and responsibilities moving forward for both Government agencies and those organisations responsible for front line response.

Yours Sincerely,
