

dear sirs/madams

i am 48,a husband and father.i did the green loans training in november 09 but did not get to sign a contract with fed.gov.until late jan.10.i thought the process extremely slow.one week later the fed gov.declined to provide free marketing materials.i conducted assessments in jan.feb. and march 10.i have as yet to be paid for a single one despite repeated requests.no assessment reports have been forwarded to my clients,nothing.my financial position is dire.i cannot in good faith continue in this program.i have been treated with contempt at every turn by the fed.gov,likewise my clients.

sincerely,

kevin.
