

**Professor Linda Briskman, Australian Council of Heads of Social Work Education**

**Answer to question taken on notice – 8 September 2023**

I did take a question on notice on a point raised by Senator Henderson about whether universities are providing concessions on fees for courses when the course or the unit of study involves a placement only (see page 46). I took this on notice so I could ask members of the Australian Council of Heads of Social Work Education (ACHSWE) about the situation at their individual universities. I raised this at the ACHSWE's national meeting on 8<sup>th</sup> September. No members were aware of such fee concessions at their own universities.
