

Sir/Madam,

My name is Baljit singh and living in Australia since from, April 2007. I would say that I passed two year study in Australia and I spend \$27000 on my study and I spend lots of money on transports and living expensive and spent almost three years time in Australia . From last two years I m working same field and I pay tax to Australian govt every year and from last 2 years I m helping to grow the economy of Australia and we want to become a part of Australia. I full fill all the immigration requirements for permanent residence in Australia. At last I want to say that new legislation coming is unfair with all international student who on bridge visa. Before making any rules or law please firstly think about what will happen with international student who on bridge visa and our future in your hand.
Please do not make any law against to DIAC (475, 487, 175, 176, 885, 886 or 887 visa categories) because this is unfair with us.

Thank to you

Yours faithfully,
Baljit singh
