Inquiry into the Primary Industries Levies and Charges Collection Amendment Bill 2016

We thank you for the opportunity to make a submission to the above inquiry.

It is my belief that sharing of such information between key industry partners can only benefit the Sugar industry as a whole. Enabling key research bodies to be able to contact and notify all cane growers of findings is imperative for the sustainability of the industry.

The bill has taken into account what information can be shared and how this information may be used by Research and Development Corporations for Research and Development purposes.
