Answer:

The table provides the date an application was made (created on) and the date the application was decided (decision date). This timeframe includes the time taken by the department to evaluate the completeness of an application, request and receive any necessary additional information from the applicant and assess the application.

There were 92 applications under assessment on 31 July 2024 where a final decision had not been taken. These are not included in the table.

There is no statutory timeframe within which the department must commence assessment of an application and this date is not captured in our database. There is no statutory timeframe to notify an applicant of a decision, however notification usually occurs within 1 business day.

An application cancellation reason of "Other" refers to various reasons, e.g. an application made for a licence for an unregulated material (i.e. no licence is required).

The Department of Climate Change, Energy, the Environment and Water does not keep statistics about why applications have been refused.
