

Subject: stop program cuts to ABC

I write to express my concern about cuts to ARTs programs on ABC television and radio. I am not at all reassured by speeches from the managers from TV and Radio, who say that they are not reducing the content of ARTS to programs.

My other concern is about the fact that ABC is outsourcing its drama. Somehow, ABC has always taken responsibility for training of so many disciplines related to Television and radio. That is what I want to continue. Please recommend that ABC continues its role in bringing excellent television and radio to Australians. I truly feel that we are losing our public broadcasting service.
