Senate Economics Legislation Committee

Re Treasury Laws Amendment (Genetic Testing Protections in Life Insurance and Other Measures) Bill 2025

The Australian Amyloidosis Network is an organisation of health professionals and patients whose goal is to improve the outcome for patients with all types of amyloidosis and related diseases.

On behalf of the patients with hereditary amyloidosis, and their kindred in Australia, the AAN submits its strong support for the ban on insurers from using certain genetic testing results in the provision of life insurance cover. Hence, the AAN supports the proposed schedule to amend the Bill Insurance Contracts Act (ICA) 1984 to regulate and enforce the ban.

Yours sincerely,

Dr Fiona Kwok
Acting Chair, AAN
