

THE SENATE

**STANDING COMMITTEE ON COMMUNITY AFFAIRS**

**Legislation Committee**

**Professor Tracy Comans, National Ageing Research Institute response**

**Question:** You made the comment that there appears to be the intent but not necessarily the mechanism to deliver. Do you have any views about how this bill could be improved to actually translate that intent into a capacity to deliver?

**Answer:** The definition of "high quality care" should include that it is evidence-informed to improve the incentive for research to be implemented.
