

To whom it may concern!

I believe there is going to be a Senate inquiry re. Naplan!

What will this inquiry achieve?

MP Peter Garrett said Naplan is great! He would. But I believe director of education standards Kevin Donnelly with his NO in the Herald Sun 19.5.2013 AD, page 80.

Why does Labor always talk itself up?

I do not believe a former Rock performer. I do not! Former ALP education MP Julia Gillard made no secrets of being so pleased with her Naplan, so MP Garrett has to agree, but will the Senate inquire?

Selfpraise is no recommendation!

I suppose the panel never heard of a Henry Louis Mencken (1880-1956 AD)? He disliked low standards of taste and culture? So do I! He was an American editor and critic, and he never held back the truth! Can one argue with the truth? Never!

Since Labor came into Canberra's offices, I start to wonder, has the human brain got smaller? And less intelligent? Or is this a move by Labor to dumb me down, and with it our young ones?

What about the latest Gonski report? Is that already a gemmer? Who is a clever boy Peter and girl Julia? Jumping from one plan to another, yet none of them ever worked. I think I take a nap!

My name is Edith

p.s. I am still waiting for Labor
to fix all kinds of promised
things, but I am sick of
waiting of Labor's unreliable
promises!
Y'll give them a miss!
