

Subject: Privatising the ABC
Date: Wednesday, 7 September 2011 8:17:18 PM

To the committee,

I'm 16 years old and value the service that the ABC provides immensely. I think that it is really very important that the ABC maintains the ability to produce high quality TV. Privatisation means that all of the specialist knowledge cultivated by this public institution is lost. Private contractors simply cannot develop the depth of expertise, without the influence of commercial imperatives that the ABC can. Please, save this fantastic station for future generations. The media is already rubbish enough as it is. The ABC is the only quality FTA station, don't sell us all out.

Sincerely,
Michaelean
