

In Refer to GLACO Collapse – GREENLOANS

14/4/10

I am an Individual Home Sustainability Assessor who was one of 120 assessors that hired a booking company that goes by the name of GLACO (Greenloans Assessors Co Operative Pty Ltd) with Trevor McTaggart as Principal of the company who “closed down” on 30/3/10.

On the 1/4/10 i Google Searched this gentlemans name and was shocked to find he was a known con-man who had “ripped off” the Victorian Government in a hearing-aid scam involving his companies Bettercare and Earcare Pty Ltd. He was also investigated by A Current Affair for this matter.

Why is it to be a Home Sustainability Assessor has to have a police check but a man who has previously “ripped off” government departments is given a contract ??

I voiced my concerns to a DEWHA call centre person in March because this company breached it contract in numerous ways and was told we had to invoice them directly.

I am a single mother of 4 and am in desperate need of my money. I have not been PAID since January for any assessments. I think it only fair we are paid as the government should NEVER have paid this man (a known con-man) our money.
