Dear Committee Members,

NAPLAN is especially important to Qld. Qld is the ONLY state without external subject exams in Senior. So NAPLAN testing in Years 3, 5, 7 and 9 is the only national exam Qld has to benchmark its schools' performance against other States. This nationwide external exam has been extremely helpful in exposing an urgent need to fix the woeful numeracy and literacy standards in Queensland schools.

Yours sincerely,

Mr L and Mrs I Voesenek
