The Senate Legal and Constitutional Affairs Committee

Canberra

Dear Senators

Porters fiddling at the edges with Family Courts.

With the industrial scale corruption , fraud and shameless self interest in all family courts is this Bill really the best your over paid and under worked advisors can do? Changing the name? Genuflecting to barristers self-interest ? Blaming the self reps ? Telling lawyers to be honest and follow the law, but only when they reach the front door of the court? Pathetic.

Take on the vested interests and the knuckle draggers of the legal industry. Get the family lawyers hands out of the pockets of Australian voters. Just like all the last hundreds of reports tell you. You take ages. This is supposed to eb bipartisan. Instead we have Labor for lawyers. FMD.

Show us you are worthy of our vote. All of you. Or I'm going Green at the next election just like I did for Jamie Parker when Labor stood an idiot Innner West candidate. At least The Greens don't get phased by the top end of town. Tell Albo we will give him the elbow , nice guy that he is, unless this stuff gets cleaned up. Fast.
