To the Parliamentary joint committee on law enforcement. The inquiry into the trade of elephant ivory and rhino horn products in Australia. Dear Sir/Madam

I am a seven year old boy and I don't like the trade in elephant ivory and rhino horn. I think that elephants and rhinos are amazing creatures and we should not be killing them. We need to stop the domestic trade. Most people know that the last male northern white rhino just died. There are three species of rhino that are extinct. All elephants with tusks and all rhinos will be extinct in 2020 (or sooner) if we do not ban the domestic trade. Please ban the domestic trade in elephant ivory and rhino horn. Chas
