

To the Committee Secretary,
Senate Standing Committee on Community Affairs,

I believe, after listening to many Aboriginal people's views, that a significant percentage of them will be very unhappy and distressed if the Intervention should continue, and especially if it were to continue for a further ten years !

Please listen with respect to Aboriginal views, even those with whom you might disagree, and then listen and assist them to solve their problems in ways which they find helpful.

Sincerely,
David Haines M.B.,B.S
