

Submission 45 - Mr Peter Corkish

Mr Peter Corkish made submission 30 to the inquiry into the Future of Australia's steel industry in the 44th Parliament.

This document is intended as a supplementary submission to the original submission 30.

All submissions received in the 44th Parliament can be accessed via the following link:

I have previously made a submission to this Inquiry, it is recorded as No30.

Several events have encouraged me to make a very short submission which I apologise for being late.

1 the Bluescope profit announcement, and,

2 a decision of the Fair Work Commission in relation to a change that Bluescope was seeking to implement.

I have reached a concluded view that Bluescope should not receive any concessions. They have demonstrated that they can manage the entity.

They have also demonstrated that they are poor manager of their workforce. In a recent decision of the Fair Work Commission they were criticised for a lack of consultation

I have no confidence that Bluescope has this under control.

There should not be any concessions or suggestions for concessions from this inquiry!
