Aleshia Westgate  
Principal Research Officer  
Environment and Communications Committee  
Department of the Senate

Dear Ms Westgate

**Response to Question on Notice**

Fortescue's Do not Deal commitment at Middle Arm expired at the end of May 2024.

Following discussion with the Northern Territory Government regarding Fortescue's projected development horizon for this project opportunity within our global pipeline of green hydrogen projects, the commitment was not extended by the Land Development Corporation.

Fortescue continues to consider Middle Arm Sustainable Development Precinct an attractive long-term location for green product projects.

Yours sincerely

**FORTESCUE**

Bronwyn Grieve  
Head of Global Sustainability
