

Recipient: Senate Committee

Letter: Greetings,

I would like to express my deep concern over the proposed introduction of so-called 'Ag Gag' laws - Criminal Code Amendment (Animal Protection) Bill 2015.

These laws are nothing more than an attempt to protect those who abuse animals (both illegally, and within industry standard guidelines) and prevent consumers from making informed choices regarding what practices they choose to support. We do not need laws that punish and criminalise animal cruelty investigators.

I believe the current laws are more than sufficient to protect private citizens from alleged trespassers and that the introduction of 'Ag Gag' laws would only serve to protect industries that for too long have freely gotten away with animal abuse.

The public has every right to be aware of what they choose to participate in, and it is only through the efforts of animal activists that they are able to do so.

I implore you to protect the right of the public to know the truth by opposing the introduction of Ag Gag laws.

connie tonna	Georgetown, SC	2015-03-09	This is Shameful - even with laws protecting the animals they still undergo severe abuse - if this law is passed the animals will have no protection whatsoever.
Janet Veevers	Australia	2015-03-09	Animals have, to our great shame, very little protection in law on Australia. We need more protection for animals and more stringent punishments for their abusers. Lyndel Ronan	Australia	2015-03-09	I cannot believe that any Australian Government would consider such a majorly cruel step back into the past. I would be ashamed to call my self an Australian or a human being for that matter if this goes through. Animals are living breathing individuals with emotions that suffer pain like any living creature on the planet. They deserve to be protected from such barbaric cruelty equally as a living member of this planet.

Jennifer Thomas	Alpharetta, GA	2015-03-09	While this is in Australia and I'm in the US, animal cruelty and suffrage (much like with humans) doesn't have borders, doesn't get to be protected, should be public knowledge. Protecting potential abusers from having to face public scrutiny is irresponsible and undoubtedly in the best interest of those who stand to profit. I speak for animals because they cannot speak for themselves.
Rebecca Cain	South Yarra, Australia	2015-03-09	We should not be making it easier for people or organisations to abuse animals. Undercover or covert surveillance has uncovered some terrible cases of animal cruelty that have not been detected or exposed by self-regulating industries or other authorities. Until industries or authorities can prove themselves to be effective, we desperately need undercover investigations to be happening to protect animals. The only reason for the Ag-gag laws that I can see is to protect commercial interests and bow to powerful lobby groups. The government should do the right thing not the easy thing and allow scrutiny of industries that have shown in the past that they will exploit animals if there is no fear of exposure or consequence.

Lee O'Mahoney	Melbourne	2015-03-09	<p>This Bill seeks to, effectively, prevent the exposure of animal cruelty and to keep it where those who profit from it wish it to remain - hidden from public view, so that atrocities can continue.</p> <p>It has been well documented in all manner of animal-based industries that authorities do not take effective action when breaches are documented. It is only when Australians, via the media, become aware of the cruelty that change occurs.</p> <p>Just as Australia has whistleblower legislation to protect people exposing breaches involving other aspects of society, Australia needs to protect whistleblowers and investigators who expose breaches involving animals.</p> <p>This Bill will remove all protection and will criminalise people who are doing work that few would want to do, but which is much needed.</p> <p>This Bill seeks to shoot the messenger, not punish the perpetrator.</p> <p>If people aren't doing anything wrong, there is nothing to fear.</p> <p>Australia needs to become a more compassionate nation, not a more cruel one. If this Bill is passed, we will most certainly become more cruel.</p>

Petah Martin	Petersham	2015-03-09	Animal welfare - particularly of farm, entertainment & sport animals (as well as that of companion animals) is of vital importance to our society. To date the bulk of exposures of animal cruelty has relied on the efforts of volunteer investigators and whistleblowers. To criminalize their actions under 'ag-gag' laws is to condone & support cruelty. Industry self regulation & Governmental laws & regulations have proved inadequate to prevent & control cruelty, while the organizations officially entrusted with monitoring animal welfare are under resourced and under financed. If people & companies cannot make their livings without indulging in cruelty they should not be in business! Condoning cruelty to animals, even if their designated fate is to provide or be food, diminishes us as human beings & as a society.

Chandni Vikram	Gaya	2015-03-09	<p>Stop Ag-Gag Now!</p> <p>The Australian Senate is currently considering a bill that will PROTECT ANIMAL ABUSERS and shut down animal cruelty investigations - the Criminal Code Amendment (Animal Protection) Bill 2015.</p> <p>For decades now animal activists have used undercover investigations to expose the cruelty and neglect animals suffer at the hands of the agricultural sector. The Animal Liberation Victoria Open Rescue team, as well as activists from many other organisations, have exposed countless examples of suffering and neglect that would otherwise have been hidden from public view.</p> <p>Without these undercover investigations the general public would be unaware of just how the animals exploited by these enterprises actually live. Thanks to animal activists who risk their safety and freedom to gather this information the public is able to make an informed choice regarding what they as consumers are willing to support.</p> <p>This vital information is now under threat. Liberal Senator Chris Back is seeking to introduce 'Ag Gag' laws, similar to those already passed overseas. These laws target animal cruelty investigators and whistleblowers. If introduced these laws will:</p> <ul style="list-style-type: none"> - Criminalise ongoing undercover investigations and covert surveillance of commercial animal enterprises. - Require that any footage obtained must be turned over to police, the DEPI or the RSPCA immediately, rather than given to animal right groups or the media. (These bodies have a long history of failing to act when presented with documented evidence of animal abuse) <p>In short, animals and their suffering will once again be hidden from the public, and consumers will no longer be privy to the reality of Australian animal farming. Please speak up now to stop this bill that serves only to protect animal abusers and criminalise the truth.</p>

N T	halifax, Canada	2015-03-09	It is truly unconscionable that there could even be mention of a law to protect abusers of billions of sentient beings who end up on our dinner plates. How low greed brings these people. Laws protecting those who bring us the truth are necessary. Laws prosecuting abusers are necessary. Laws protecting abusers? Never! We can voice our concern and Boycott them!

Marilyn McNally	Sherman, ME	2015-03-09	ANY law that is in place to protect animal rights is a good law. Why remove it? That is a BIG step backwards. It's only right that animal farms be monitored...if they're doing nothing wrong, why would they strive to have monitoring removed? Please keep these laws in place, I beg you.

These are the very people who have paved the way for worldwide education and change that has improved the lives of animals and exposed some of the most heinous human behaviour. This is absolutely shameful for the government to even think on these terms.

monica brown	elsternwick, AL	2015-03-09	For so many various reasons, this is a very bad path to head down. we are already having so many of our rights chipped away. We need to be able to keep big Ag under the spotlight. They already get away with murder (literally and figuratively), that there need to be checks on their business. It is clear that big ag only care about the money, never the suffering of those we so carelessly eat on a daily basis. People from the likes of Animal Lib, Sea Shepard do an important job in keeping animal rights and issues on the front page. The entire meat industry needs to be overhauled! Read Meatonomics by David Simon. Maybe we have a tiny window of opportunity to save our planet. or at least to prolong its life. All these things are interrelated. Start reading and stop this legislation.

Asher Trama	Melbourne, VIC	2015-03-09	We have the right to know how animals are treated in the animal agriculture industry.
Anna Irvine	Palmerston North, NSW	2015-03-09	Glad I'm a Vegetarian!
J Wilkinson	Australia	2015-03-09	Animals need to be protected and live a life free from inhumane treatment, torture, abuse, neglect, malicious deliberate slaughter, painful death. The corporations, factory farms, companies whom commit these atrocious acts must and will be exposed and the the public have the fundamental rights to know about what goes on behind closed doors, so therefore we can make our own informed choices based on the truth. The animal activists organisations are there for the welfare and safety of the animals and in doing so need to obtain footage as evidence! You cannot silence them or the public. Do not bring in such a law that would protect the animal abusers!
sharen virtanen		2015-03-09	I am vehemently opposed to this bill being passed. It is imperative that abuse investigations be allowed to continue until their full conclusion so ALL the facts are brought to light

pam evans	Australia	2015-03-09	animal abuse is a criminal activity and you should not be prosecuting those who bring the evidence !!
Shelley Goodman	Hamilton, New Zealand	2015-03-09	Because it's WRONG that's why, always has been and always will be.
Amanda Fuller	Port Macquarie, Australia	2015-03-09	This is animal cruelty to turn a blind eye. If you are not part of the solution you are part of the problem. It is your obligation to be part of the solution we have voted you all in to speak for us all. Major majority is for the animals so do your job and do the right thing by the beautiful animals of this earth. They have the same right to be here as us. We should comend the people out there fighting for them, not condemning them. Wake up.
Sue BAMFORD	Happy Valley, Australia	2015-03-09	The truth always comes out. Do not put in place a bill that will protect animal abusers.....shameful.
Georgia Stebbings	Dovercourt, Essex, ENG	2015-03-09	This is ridiculous. There are millions upon millions of people that are completely against animal cruelty. Why is it that government cannot even bother to satisfy all those people whom pay taxes and support you? Surely you can at least bother to do this. Failing to do so will be bzd for you publicly and your voters will indeed question what is the matter with you in not reversing your proposal here. In fact, one wonders what is in it for yourself to bother with reversing animal protection.
Heather Edwards	Campbelltown NSW, NSW	2015-03-09	We need to have the cruelty exposed to protect the animals. It is a shame that there is cruelty in the first place.
Elaine Crump	Albany Creek	2015-03-09	It will be ok to stand behind a tree and take video of a pedophile approaching children outside a school; it will be ok to set up a surveillance camera to monitor intrusions to my house; it will be ok to wear a camera to film dangerous motorists while I ride my bicycle; but were I to stand outside an agricultural facility and film abuses of powerless, defenceless, and largely unrepresented creatures, I will be jailed? This sounds like legal discrimination.
Len CROSS	Gold Coast	2015-03-09	It's common sense. If Govt was trying to agitate for civil unrest for some sort of diversion it couldn't do it better than pass this legislation. In fact it would be a crime in the making. Thereafter politicians and their constituents would be complicit in outrageous acts of cruelty and vicariously responsible. This could well end up with legal action or even worse . . .
melissa skelley	Melbourne, VIC	2015-03-09	The average Aussie wants harsher penalties for animal abusers, not protection for them. Get real Abbott & co. Do your jobs and serve Australians.

Debbie Bloomfield	Cairns, QLD	2015-03-09	Don't be ridiculous! If the undercover investigations have proven to expose and lead to prosecution of criminal activity, the law makes the government look callous, suspicious of supporting the crime and corrupt. Be careful, you may come back as a pig! Then you will be sorry when there is nobody there to protect YOU!
Donna Robinson	Australia	2015-03-09	People have the right to expose those doing wrong. Animal cruelty needs to stop!
diane Mcleod	Australia	2015-03-09	i deeply care about animals and think its vitally important we have people who will stand up for animal rights.
mia davies	Australia	2015-03-10	animal cruelty needs to be abolished.
Diana Thurgood	Berambing, AZ	2015-03-10	This appalling bill must be stopped. Independent cruelty investigations are the only ones that actually produce any meaningful results in the area of animal welfare. We CAN NOT trust industry and those with vested interests to represent the interests of animals. I absolutely appose this bill and will never accept it.
Megan Metherrall	Mount Gravatt, Australia	2015-03-10	The horrors done in the darkness will be exposed to the light
Catherine Wolf	Calgary, Canada	2015-03-10	This must not happen in ANY country, people have a right to know, MUST be made to know, the extreme, unforgivable cost to animals in terms of pain and suffering whenever they are used for food, clothing, entertainment and research.
Emma Seymour	Longford, QLD	2015-03-10	It is only by the courage and hard work of whistleblowers that truly heinous actions carried out behind closed doors have been exposed and addressed. If ag gag laws are passed industries using animals will be even less transparent than they are now and if they supposedly have nothing to hide, WHY are they pushing for this cloak. Any senator that supports this needs to question their ethics, and their desire to remain as an advocate and spokesperson of the people because this is wrong and the vast majority of Australians DO NOT want it!!!! If you stand to gain money from it you may want it but that is where any support for this bill stops. The majority of Australians want honest information about the industries they engage with and thus bill prohibits this. Supporting this bill is a nail in your political coffin as far as the general public and wider electorate of Australia is concerned.

Elise Jones	Australia	2015-03-10	I am signing this petition because I find it absolutely disgusting that the Australian government is trying to make access to what goes on in slaughterhouses a criminal offense. Australians have every right to see and understand where the meat they want to eat so badly comes from. These animals are sentient beings with every right to live a peaceful life on this earth, the same as human beings. As a law student, I also find this extremely irksome. You are taking away freedom of information to the consumers and to individuals. Chris Back, you disgust me. The public deserves the truth and so do the animals who are powerless to speak for themselves.
Adrienne Oaks	Dunedin	2015-03-10	Because gathering evidence of cruelty takes time and this bill would effectively make that impossible.
Simone Squires	Australia	2015-03-10	we should not need a law to gag the truth! The public need to be aware of what's going on. Our animals need better treatment and tougher laws to protect them.
Christopher Norris	Australia	2015-03-10	This would have to be one of the most morally disgusting pieces of legislature ever proposed!!!!
Daniel Struchen	Amarillo, TX	2015-03-10	All these do is allow for cover ups. We need to know how livestock is treated. Animal abuse has can not be allowed to happen.
Janet Biemond	melbourne, Australia	2015-03-10	All places where animals are kept in groups should have CCTV. There must be transparency. Animal advocates are acting in the absence of independent CCTV and are the only ones to expose the cruelty. They are to be applauded, not condemned.

Tanja Schwalm	Christchurch	2015-03-10	I'm signing because Ag Gag laws protect animal abusers and refuse consumers the right to know how products marketed to them are produced. Undercover investigators only show what is true, and for a law to punish those who uncover abuse is patently wrong, unfair, and anti-democratic.

Danika Nelson	East Geelong, Australia	2015-03-10	We need to be a voice for those that cannot speak for themselves!
Sage Dufty-Miller	Australia	2015-03-10	How can consumers be expected to vote with their money if they don't know what the candidates on the supermarket shelves stand for? Transparency is key.
traci myers	Perth, Australia	2015-03-10	You have no right to protect these vermon of humanity!!! Your proposed law change is archaic!! I will never vote for liberals u guys are out of touch ☐
Sue Leighton	Australia	2015-03-10	While ever we allow cruelty of animals in farming practices we overlook the damage it does to the workers and eventually their families. Ask your local Dr what mental condition is displayed by the total lack of empathy. He will raise his eyebrows and tell you no-one you want near your family. We need exposure not protection. Cruelty is never acceptable in any shape or form. The people exposing it are to be encouraged if our world is to get better. do not pass the ag law because as a country we will get sicker and nastier.
Jules Clifford	Cootharaba, QLD	2015-03-10	We need to protect these brave fearless people who go undercover so we can be aware of what goes on - how can we just go on living not knowing about animal cruelty - this Bill should not be allowed to pass - NO NO NO - let us stand together on this

Kristina Van Sommeren	Brisbane, QLD	2015-03-10	Animals deserve dignity and respect just like people, sometimes even more so considering what some people put them through.
Cindi Blyth	Pakenham South	2015-03-10	If factory farming or any farming did not have anything to hide "Ag-Gag" would not be necessary. So what are they hiding ?? And why is the government helping them by considering this Law ? This Law certainly doesn't help the public, just the corporations. Isn't the Government supposed to be for the people not the corporations.

Jedda Tuuta	Melbourne, Australia	2015-03-10	because this is just wrong
Liz Mago-Harwood	Altona North, VIC	2015-03-10	I am sick to death of hearing/seeing/reading of animal abusers walk away unscathed from prosecution for acts of base abuse upon those that depend on us for safety and care. Time to lock them up and/or heap upon them what they have done to the innocent animals. Do not try and shove this under the carpet - this is a moral outrage that needs to be addressed immediately. The only gag I'd like to see is one put on Senator Chris Back.

We do not have the right to have that effect or to make that decision. To make progress for humanity and for the world we need to accept these facts and remove the murder and harm and use of animals

Chloe Wadsworth	Knoxfield, VIC	2015-03-10	If this law is brought in then I expect another law brought in to enforce 24 hour video surveillance in all facilities to protect animal welfare. We all know what happens behind closed doors because footage has proven it time and time again. This should be everyone's common sense. Animals didn't live like this hundreds, thousands of years ago - they were treated as part of the family as they were. There shouldn't need to be any signing of anything in the first place - these animals deserve justice and the people in charge of this deserve what these animals have gone through. I am relieved to see big and small organisations helping and really doing whatever they can to free the animals, the way they should be. Act now, wake up and think where and how did I get this steak in front of me, or these eggs, or this bacon - who was in charge. Whoever was needs a wake up call. We share this world with these creatures - have some dignity!

Naritha Morris	Melbourne, VIC	2015-03-10	People should be informed of how anything they buy has been handled before hand, as bad as it sounds for me to say that. Unfortunately there's a lot of people that wouldn't part with their pennies just to support animals, I really pray and hope that there's enough of us to get this wiped. How third world do they treat these animals when they have more than enough money to at least comfortably house them and handle them with respect and care before their time. Not torture them and make their time doom and gloom until death. It makes me sick and everyone in those industries I believe have big, big unresolved problems. They are sick if they can do that job and be happy. To be surrounded by death, to be the people that take lives. :(

Marianne Christensen	Odense	2015-03-10	To reveal the truth about, what is going on the factory farms in the production of eggs, diary and meat, must not be hidden, so we won't be able to investigate and expose the animal cruelty and neglect with a major number of suffering farm animals, that have happened on many occasions in the industrial factory farming of animals. It's not right off the authorities to make the blind eye be turned to this of, what goes on the farms of cruelty and suffering to the poor animals. Sue Clarke	Logan Central	2015-03-10	The only reason the government wants to introduce this law is because they consider 'industry' above that of animal welfare. The bottom line is that we have political parties that place no value on animals, so long as there is a profit to be made governments are prepared to turn a blind eye and they can't do that when there are animal advocates who will put their own safety at risk to fight for the rights of these animals. All animals have a right to live a life free of abuse and cruelty.

Ingrid Neilson	Windsor, NSW	2015-03-10	When our animal cruelty laws either aren't working or aren't strong enough, we need groups like these to shine the light on dark practices. The public's reaction is clear; when we learn the barbarity of certain farming, fishing or sporting methods we won't tolerate them, and so outdated practices that cause undue suffering are forced to change. This reflects well on our society. And it means democracy is working well. This bill must be rejected.

Scott Branden	Olinda, VIC	2015-03-10	I believe exposing cruelty is the right thing to do and anyone who would suggest covering cruelty up is just as guilty as those who commit these heinous crimes. Animals need to be protected from harm, especially those used as food animals.
Dominique Orwell	Brisbane, Australia	2015-03-10	its that people who abuse animals should be protected... If they were humans would the same rules apply?
Patricia and Eric Brower	San Diego, CA	2015-03-10	They probably want to hide the fact that they're donig their drugs and don't want it on film. Not everyone that works these slaughterhouses can be that cruel without somekind of hlep. Too much tweek makes them irritated especially hurting for more cause it's wearing off. No I don't support that ag-gag bill for nothing. Somebody needs to help these poor babies and let them know that someone out here cares enough to at least think of them and be effective on helping them with their suffering. If I had enough money I would buy all the slaughterhouses in teh world and shut them down permanently. Put those out of business and let them find real jobs not a place to take out their agression out on innocent animals that don't deserve such treatment. Shame on them!! All of them throughout the world I say!

michelle rose	Australia	2015-03-10	Efforts need to be made to change the way some animals bred for food are raised and treated. We do not need to criminalise people who are acting to protect the animals when no one else will. If these investigators are prohibited from attempting to expose instances of cruelty, who will help to put a stop to it? It will forever go on unnoticed and will be free to get worse unseen.

Angela Patten	Australia	2015-03-10	It is a travesty that Governments in this country do not police animal industries to ensure the laws are followed in regard to animal welfare. But they do not, so it is up to organisations like Animals Australia (and many others) to play a whistleblower role. If Ag-gag laws are introduced this cannot happen and animals will be left to the mercy of those who would put profits above wellbeing. Please do not let that happen!!

Suzanne Sheldon	North Chittenden, VT	2015-03-10	The torture these animals go through, in order to maximise the meat industry's profit, horrid & unacceptable! Now the government is actually considering making it illegal to expose the reality of the industry? Shouldn't they be considering the legality of forcing animals to live & die the nightmare that truly IS their life? No animal on earth deserves this insidious suffering, for what? A chicken mcnugget? There is ZERO respect for the citizens of a country, if laws make it illegal for them to know the truth for the sake of big business making a profit at the expense of decency & compassion. That is uncivilized.

C Donaldson	Western Australia, Australia	2015-03-10	Free press and media is required to protect the most vulnerable and harmed members within society. Vulnerable animals should not be excluded from our consideration. The great majority of Australian people is opposed to cruelty to animals; we not only deserve but are owed accurate information on the routine cruel treatment of farmed animals. Seeking to deter and prosecute journalists and activists who are acting in the public interest is contrary to democratic accountability, and is shameful.
Aaron Hunt	Australia	2015-03-10	Animals don't deserve this treatment, they have just as much right to live and live happily as Humans do. So easily we forget this, we forget they to have lives of worth and feelings of there own they are not just 'dumb animals'

Kathy holroyd	Australia	2015-03-10	no animal deserves to be treated like this
Jacquene Cranna	Darwin, Australia	2015-03-10	Investigation of animal cruelty, in whatever sector, should not be hampered. Changing this law will do this. Independent investigation is what is required and reporting of cruelty is a necessity. Those who are caring for their animals humanely should have no fear when reports of animal cruelty are looked into. So why alter the law?
Elizabeth Gothard	Melbourne, FL	2015-03-10	There most definitely needs to be laws and regulations for the human treatment of animals. And there should be consequences if those laws are broken. ALL animals feel pain, love, sadness and fright just as we do. My wish would be that all factories are shut down but until then, let's at least treat the animals with humanity and respect.....for they are smarter and more compassionate that most people I know. - Elizabeth Gothard

Shyami Nazzaro	Grahamsville, NY	2015-03-10	Stop the cruelty, not the REPORTING of cruelty. Ag-gag is very bad for society. Cruelty is cruelty, whether reported or not, and cruelty is wrong. We all know that! Why are we even ENTERTAINING something as backwards as ag-gag??

If we feel that we are the most powerful bearings on earth and can use them as we wish, they deserve to be used in the best way possible. Imagine if some other being felt stronger than your children or your family or your friends and decided to use them for its needs and abuse them terribly and made them feel pain and hurt and suffer. Would that be okay? Justifiable? Humane?</p> <p>Solely because they come in a different form does not mean they deserve less respect. . PLEASE give them the rights they deserve as living creatures who have no choice in how we humans use them. It's not fair.</p> <p>How would you want to be treated if you were one of them? We should treat all living beings and creatures the same as we would want to be treated. Please do not stop the investigations, this would be a blatant act of cruelty. Emily Weber	Statesboro, GA	2015-03-10	I would like to express my deep concern over the proposed introduction of so-called 'Ag Gag' laws - Criminal Code Amendment (Animal Protection) Bill 2015. These laws are nothing more than an attempt to protect those who abuse animals (both illegally, and within industry standard guidelines) and prevent consumers from making informed choices regarding what practices they choose to support. We do not need laws that punish and criminalise animal cruelty investigators. I believe the current laws are more than sufficient to protect private citizens from alleged trespassers and that the introduction of 'Ag Gag' laws would only serve to protect industries that for too long have freely gotten away with animal abuse. The public has every right to be aware of what they choose to participate in, and it is only through the efforts of animal activists that they are able to do so. I implore you to protect the right of the public to know the truth by opposing the introduction of Ag Gag laws.

So much has been bought to the public, such as myself and I don't want it hidden away - I want to know what is happening so it can stop happening. This is a ridiculous attempt to silence those simply trying to give the animals of our world a voice - and for what?! To allow people to put them in pain? What is wrong with our world where we see people fighting for that to continue?!

Neil Teisina	Porirua	2015-03-10	I'm signing this petition because I to am a pet owner and the last thing I'd do is treat him with hate and disrespect it's not fair that animals now days get treated they way they do today. It's not there fault your having a bad day it's not there fault that. People got to realise that animal are no different to humans they to have emotions, they to have the heart to love one another and also care for each other. Animals protect their own just like we do so why are humans constantly treating them like they mean nothing. If an animal was to do someone like that it would get put down. So why isn't that the same for humans. That's a question I'll never find the answer to. But I'm all for this petition. Animal cruelty shouldn't be left in the cold. Time to make a change for our animals.

Vanessa di Bartolomeo	Australia	2015-03-10	I'm signing because it is outrageous that the government want to protect this cruel people while they do heinous things to these innocent, helpless sentient beings. These poor captive creatures are the ones in need of the governments protection. This genocide of other species needs to stop. The time when murder of these beautiful creatures is viewed the same as murder of human beings is long overdue. Essentially the government and all people who consume animal products are condoning this genocide and it is like a repeat of the holocaust which people consider so heinous because it happened within their own species. It was a terrible event, but why are we doing it to others? They feel pain and fear. Humans are mass murderers that eat their victims. Now isn't that sickening to you? Stop the government from protecting these people but stop killing animals all together would be a better idea, not only for the innocent beings but for the health of our planet. Thanks for reading.

Angela Brito	Redbank Plains	2015-03-10	I am signing this petition because I find it appalling that the government would even consider helping the perpetrators of such cruelty as was exposed recently in the greyhound racing industry by introducing a law which helps protect the perpetrators and hide the reality of the deplorable cruelty that goes on behind closed doors. It's a fact that if this law was already in place that these crimes against the innocent would never have been exposed. That the guilty would keep breaking these laws and the real heroes that exposed these injustices would become the villains and suffer at the hands of the law. The public has a right to know what is going on in these situations and if these industries have nothing to hide then this new law the government is trying to introduce would not be needed. I am sure the majority of people are against this proposed new law.

Stephanie schmidt	Calgary, Canada	2015-03-10	im signing because it's horrendous to think we live in a world where the government protects individuals and corporations that abuse animals. It devalues animals lives and the work of many activists who have atreghtened the global outlook on how our food should be treated. Danielle Lopes	selby	2015-03-10	I'm signing because animals cannot! It is a disgrace in this day and age that those that take pleasure out of cruelty are allowed to let alone live along side decent human beings, they may have a job to do but torture was abolished many years ago as illegal, why is allowed towards animals who have no voice but ours to protect them. In this day and age of advancement to think this treatment is looked over is a disgrace. For the love of god this MUST be stopped. I would prefer not to live amongst people who derive pleasure from torture and protected by our Governments. What double standards we teach our children and future leaders. Shame on you for trying to hide this from the public who have a right to know and pay your wages every day.

debi lysaght	St Helens, ENG	2015-03-10	I find this very worrying as animal welfare needs to be highlighted not hidden. Great animals fairly and give them a good, as natural a life and the end product will also be better. We have ex caged hens and the horrible state they were in was shocking. But after given freedom, good food, daylight and basic care they have become fantastic egg layers abd have feathered up ... Many look oven ready please do not do this.

Jacqueline Hipwell	Randwick, Australia	2015-03-10	It should be the ones who commit these horrible acts to be subject to the criminal law, rather than simply those who expose it. Catherine Nicolopoulos	Adelaide, SA	2015-03-10	We have a right to know when animals are farmed unethically, and when practices need to be changed. Animals are vulnerable, and cruelty can go on for decades without the public being aware of what is happening, these laws will prevent us being able to change practice.
Jo Angri	Australia	2015-03-10	Being at the top of the food chain doesn't give us the right to cruelty. Let's get back the reverence our ancestors had when hunting animals to feed the community. Let's be thankful to our animals for sustaining us and let's honour their contribution to our sustenance.
Raelene Pitcher	Australia	2015-03-10	animals need our voices to help protect them from neglect, abuse and inhumane processing operations and we as consumers, must have a say in what we believe is right or wrong in those processes. shar w	london, United Kingdom	2015-03-10	Australia: you have a lot to be ashamed of, no wonder you sink to such low levels! Take note: You cannot gag us, ever!
Mary Buckner	Masterton	2015-03-10	animals and chickens need humans to stand up for their rights - they can't speak for themselves- that does not make abuse okay, it makes it worse.

We need MORE GOOD LAWS, not less. Be remembered for achieving the best you have done.not the worst. Show us all you deserve our faith and trust.
Steph Dembinski	South Bend, IN	2015-03-10	Animal cruelty is unacceptable and as the only sentient species with the ability to act cruelly it is our responsibility to rectify and prevent immoral behavior.
Joan Fallon	Westborough, MA	2015-03-10	ANIMAL CRUELTY MUST BE STOPPED AND THESE INVESTIGATIONS ARE THE ONLY WAY TO ACCOMPLISH THAT. ALL LIVING CREATURES HAVE A RIGHT TO LIVE A CRUELTY-FREE LIFE!
Ali Goforth	Australia	2015-03-10	Animals have NO rights without COMPASSIONATE human intervention ... and compASSION humans ought to have the right to do "whatever it takes" to expose that which is both CRUEL and ILLEGAL!
Alana Tompson	Preston, VIC	2015-03-10	This is a disgraceful law, animal abusers should be accountable for their actions not protected by laws like this.
Roscoe Osborne	Clunes, VIC	2015-03-10	It's the consumer's right to see every stage of the production of their food
mike glen	london, ON	2015-03-10	AG Gag bills are an assault on our right to make personal decisions based on factual information. I may want to know how animals are abused so I can decide to stop eating meat. It is my right to decide
Laura McKinnon	Australia	2015-03-10	Responsible, ethical farming of animals is not only better for the animals themselves and the land they are raised on, but for the nutrient density of the animals once they are our food. The flip side is consumers need to stop demanding cheaper and cheaper products - as to make a profit producers have to cut costs somewhere and it will be at the cost of the animals welfare - which ultimately is at the cost of our health in the end. Make a real difference by getting to know and buying direct from responsible, ethical farmers. Their products are amazing value for money when you consider the entire picture - from environment, to animal, to your, health!
Darlene Parah	Gouverneur, NY	2015-03-10	I fell abusers should be prosecuted just as if they abused a child
Claire Kulyk		2015-03-10	Animals should be treated with respect and care

Nicole Shir	Bohle Plains	2015-03-10	Because it so cruel!
kaye smith	vic, Australia	2015-03-10	Abused animals need our eyes and voices to protect them from those who mistreat them
Bernice Lethlean	Australia	2015-03-10	I believe that every person has a right to know about cruel and unethical practices in all animal industries. This is another attempt to hide to cruelty and suffering of those without a voice from the people who can potentially help them. What goes on behind closed doors has to be exposed. To pass this bill is to say that animal cruelty is ok.
Chyenne Olive		2015-03-10	I feel strongly that these animals deserve better!
Alyson Gale	Richmond, Australia	2015-03-10	This disgusts me! We have an obligation as intelligent creatures to question the ethics of our behaviour and this kind of blatant cruelty

Sam Adkins	Australia	2015-03-10	cruelty to animals is inhumane and unnecessary!
maria elisabeth klein	novo hamburgo	2015-03-10	
Susan Dobbie	Melbourne	2015-03-10	Animals need our protection. We are all equal, and no one would get away with treating a human this way, they would be sent to jail or sentenced with death. So why treat animal matters differently? Animals are the only good thing we have in this world, they have a heart of gold. Anybody who doesnt care about their protection and their right to a beautiful life needs to put themself in the animals shoes. How do u think they feel!? Dont be so cruel!
rebecca phoenix	Surfers Paradise, QLD	2015-03-10	We have every right to know, not only as consumers that care about our choices but as caring human beings what is going on in these places and how the animals are being treated! If they have nothing to hide then this ag gag is completely unnecessary!
Melissa White	Biddaddaba	2015-03-10	I'm concerned about the level of abuse escalating against these poor, already mis-treated animals. With an ag-gag bill in place, free reign will be given; a lack of accountability will be taken and there will be no voice to defend the defenceless. Keep the 'Animals as Food' Industry accountable for their actions.
rebecca phoenix	Surfers Paradise, QLD	2015-03-10	This is a petition that is very important. It is a sad and scary fact that the only way we ever find out the truth about the way our animals are treated in factory farms and other organisations is the footage that people manage to sneak out!! If they didn't we would be oblivious to what truly goes on and prosecutions would most likely not be made. A great example of this is the expose of the greyhound racing industry! The horrors have come to light and we are mortified and insist something is done. This has gone on for many years and would have for many more had they not been exposed. We as consumers who would like to make informed choices and caring human beings have every right to know what is going on behind closed doors and if these organisations have nothing to hide then this Ag Gag is completely unnecessary. As it is they should be way more transparent, not trying to hide from us but they won't because they know that our welfare standards are a joke and rarely policed and they can get away with just about whatever they like. They need to be made accountable and to know what we expect from them. Animal cruelty is never ok!!
Kate Roche	Australia	2015-03-10	Protect our animals!
Liz Knoll	Australia	2015-03-10	I'm signing this petition as I am against cruelty and we as a whole should be able to report/ help wipe out those that cause harm to other living creatures with out discrimination
Kim O'Rourke	Brisbane, Australia	2015-03-10	The only reason to enact laws like this is to protect abusers. Hardly a good reason to restrict whistle-blowers' freedoms.

Zoe Paull	Australia	2015-03-10	Want to stop animal cruelty
Tim Lobegeier	Australia	2015-03-10	<p>I'm worried that rather than punishing the perpetrators of animal cruelty, this bill will unfairly target undercover investigators and investigative journalists who expose animal cruelty. The Bill will also target whistleblowers, who will be deterred from exposing animal cruelty in their workplaces due to fear of losing their jobs.</p> <p>Without undercover investigations, systemic animal cruelty in factory farms will escape detection. Instead of targeting the messengers, legislators need to focus on ways to strengthen the monitoring and enforcement of existing animal protection laws.</p>

Catherine Blann	Australia	2015-03-11	Animal cruelty for any reason is completely unacceptable. Hidden or not people will continue to fight for animal rights. There will always be groups or bodies creating awareness passing this bill is merely another step towards the government shaming themselves and showing yet again that Australia supports cruelty. This simply not true and is reflected for minority groups. The government has no right to speak for monorities. Dont pass this bill and put Australia to shame. Support the end of cruelty not the reality of it.

Public servants are meant to serve the public's interest and not government/party interests - who appear to have lost sight of serving the people. The introduction of Ag Gag laws will protect the governments interests (conflict of interest) with the Ag industry

Linda McDowell	Brisbane, QLD	2015-03-11	The animal farming and entertainment industries' practices need to be transparent for many reasons, including public health and environmental impact. However, the most important reason cuts close to the very heart of humanity: the public must know how the industry's raw materials - the animals - are treated, so that they may make informed choices rather than be misled by lies. The recent Australia-wide greyhound racing scandal serves as proof that, without the intervention of independent observers, the truth would never have come to light.

That gives free reign for people to treat animals with complete disregard and fear no consequence. An animal may give its life for the purpose of providing food for the human race, but this does not mean we can treat and abuse them as we feel!

They are as intelligent as a small child, even more so in various intellectual functions. We need to consider each hen as a personality who experiences a host of emotions, love to fear, empathy to pain! They are not a meat product to explore for food! Keep welfare high on tour agenda, keep it open and transparent! Would you like to spend your whole life in a cage???? In a stinking, dark, noisy, barren environment.... We are the animals; keeping such beautiful god given creatures in such distressing ways! Bless you for making a difference to a sentient life!

Karl Morris	Bunbury, WA	2015-03-11	Its inhumane
Sarah Mathias	Wangaratta, Australia	2015-03-11	because, as a consumer, I want to know that I can make an accurate choice in what products I consume. If I cannot trust an industry to be self regulating (which it is quite clear with all industries) then I shall not support it - so, either become amazingly transparent all of the time (not just when someone books an appointment to visit farms) or deal with and accept it when others take the necessary steps to disclose. I do understand the arguments used by supporters of this and similar laws and, to some extent agree. However, again, as a consumer, if I can't trust the producers then I have to rely on those I can. After all, if you have nothing to hide..
Clare Caldeira	-, WA	2015-03-11	we ae supposedly enlightened 1st world country. Why should animal abuse be condoned indirectly by gaging people who would otherwise expose this ?
Liana Gibson	Australia	2015-03-11	This is a disgrace. I can't even fathom the fact that undercover investigations into animal cruelty might be abolished. Animal welfare needs to be a top priority.

amy arkadieff	Forest Lake, Australia	2015-03-11	We need to support those who can not support themselves
Leah Hay	Melbourne, VIC	2015-03-11	People need to change and not as many will if they do not see what harm they cause by the choices they make. People will not ruin or or damage this world beyond repair as nature will always fix the problem even if the problem is people. This ag-gag law if introduced will take away people's right to make informed and educated decisions about what they consume.
Alicia Case	Australia	2015-03-11	Animals don't have a voice to say that this is wrong, I do. And caged eggs & factory farming are wrong.
Amber Hinton	Murray, UT	2015-03-11	I'm signing because this is wrong, it is not hard to let animals live happily and their eggs taste better when they are happy. They are living and can feel pain, humans should take care of them with compassion, we know right from wrong and this treatment is wrong and cruel.

A.Louise Tavener	Kingston, Norfolk Island	2015-03-11	This is so wrong.
Melissa Jackson		2015-03-11	I believe that animals deserve to be provided with advocacy, to receive treatment that is not unnecessarily cruel or that leads to or prolongs their suffering in any way. We as humans have such capacity for empathy and compassion, so I would like to see this put to use- rather than wasted or discarded.. we can do better ☐☐

Rhonda Jobson	Australia	2015-03-11	This is sooo wrong & innicent animals need a voice & need help
Rachael McAllister		2015-03-11	This is an outrage!!!!!! I can't begin to express my disgust that this could possibly occur. It stinks of corruption and self interest. That this could happen in 2015, that the voiceless and abused could be further mistreated by making criminals of those that try to help them...unbelievable! These abusers must be rubbing their grubby hands together at the thought of it and it can only be possible if there are politicians corrupt enough. Imagine a world in which the guilty cannot be brought to justice...this is a giant leap in this direction.
Ginette Cullum	Australia	2015-03-11	No amount of food or money is justification for cruel an i humane acts. If most farmers can do the right thing then why can't they all? And if it takes undercover investigators to find the culprits then so be it.
Spyro Kolofotias	Zetland, Australia	2015-03-11	I believe that no animal should be exposed to cruelty. The agricultural industry has to treat animals humanely - consumers need to know where their food comes from. and it's not from a farm filled with happy animals. the industry is a disgrace. I do not want to see this country head down the rotten path that the US has.

Stephanie Cano	Lovettsville, VA	2015-03-11	As a chicken owner, that strives to give my birds a happy, healthy life that they would of otherwise never have experienced had they been hatched, raised and bred specifically for eggs or meat. My birds, free range daily, eat the best foods and are treated as pets. We DO NOT eat our birds, nor do we eliminate based on gender. Our birds live in peace and harmony and in the event that they stop getting along, as there have been occasions in the past, we simply make accommodations for them. No killing or mistreating any animal on our farm.
Tracey Daniels		2015-03-11	Animal cruelty is not acceptable in any situation

Ashlee Hollett	Australia	2015-03-11	Im signing because i believe animals do not deserve this horrible treatment. All animals should be free range and should NOT be kept in tiny cages all of their lives. Every animal deserves the right to a happy healthy life. Afterall without animals we have no produce, so we need to stop the abuse and respect them!!
Jess Petagana	Australia	2015-03-11	This 2015, animal cruelty needs to be a thing of the past. we have a choice and we want these cruel industries shut down. there are better ways to operate that dont involve making an animal suffer all its life. Heather Morgan	Auckland, New Zealand	2015-03-11	All animals deserve to be treated humanely and with respect. If the perpetrators have nothing to hide, there is no reason to shut down these investigations. The only way to shut the investigations down should be to shut down the abuse that instigates the investigations.
Sonja Mihelac	Tully, Australia	2015-03-11	Animal cruelty is wrong!
Alison Richmond	Australia	2015-03-11	undercover investigations are the only thing that is working to expose cruelty and illegal practices. Sandra McLean	Australia	2015-03-11	These poor animals deserve to be treated in a humane manner not as a "thing" that is just used then cast aside. The conditions they live in is beyond belief as they were never intended to live in confinement , have their babies taken away, not be allowed the sin on their back or a scratch in the dirt. I have free range chooks and it is a world away from most of these poor animals existence.
Amy Banham	Australia	2015-03-11	animals deserve better. They should be protected like other animals eg dogs, cats etc
kerry-ella mcaullay	Australia	2015-03-11	People need to know what amount of suffering is endured by out voiceless, defenceless animals when they pour gravy on their pork. You can change this. Sonja Creary	Ulladulla, Australia	2015-03-11	If we are going to eat the animal products produced by our agriculture industry then we are entitled to access information regarding the treatment of the animals involved. This then allows us to make informed decisions about what products or brands we either use or do not use. Our freedom of access to this information will then, in turn, benefit the animals.

Amy Oneil		2015-03-11	The government of Australia should be standing up for the rights of ALL its residents... That includes the animals! To exploit animals and gag those who investigate and show the public just how disgustingly animals are treated is taking away our rights!!
Janet Brewster	East Gwillimbury, Canada	2015-03-11	Animals deserve to live a life of freedom, free from harm, free of misery, free from abuse, free from rape, free from experimentation and free from exploitation and entertainment purposes. Please stop the Ag-Gag. All abuse towards animals needs to end and by allowing the abuse to be covered up and go unseen will only create more violence in the world and never create peace. Please help end their suffering now.
Heather Lang	Australia	2015-03-11	Instead punishing the perpetrators of animal cruelty, this law will unfairly target undercover investigators and investigative journalists and whistleblowers. It hides cruelty to those who cannot speak for themselves, whilst punishing those that seek to expose and ultimately change the way we view and treat animals. These people are not criminals. I appalled that a law like this is even being considered in a democratic country.
Lache Bacich	Australia	2015-03-11	please put an end to this poor animals suffering
Jo Marshall	Australia	2015-03-11	This is absolutely disgusting! These people need to be named and shamed and there needs to be MORE investigations rather than less. These people are already getting away with far too much. If someone has no compassion towards an animals life and how they are treated, who knows where else this will lead. These poor animals don't have a voice - we need to be their voice and seek justice to the people that are sick and twisted to be so cruel.
Lisa Wadham	Melbourne	2015-03-11	Whistleblowing on cruelty should not be illegal, those who commit cruelty are the criminals.

MARILYN DAVIES	TYNONG, Australia	2015-03-11	I am absolutely totally opposed to this horrid bill. The pivotal reasons have been well encapsulated by Voiceless: "In essence ag-gag laws permit a culture of secrecy by punishing journalists and whistleblowers rather than the perpetrators of animal cruelty." This right wing bill must not "get up" in the Australian Parliament.
Sally Willmot	Australia	2015-03-11	The farmers and animal abusers have it easy enough now. This will allow them to get away with cruelty.
Rolf Wood	Sydney, Australia	2015-03-11	The Criminal Code Amendment (Animal Protection) Bill should not be passed, because of it's potential to criminalise whistleblowers, and rely more on self-regulation for the keeping of farm animals - a recipe for possible animal abuse and corruption.

If we are going to eat them and use them, we need to at least respect their lives while they are living. It is completley inhumane to prevent animal advocates from doing their job. People who have something to hide need to be exposed and shut down. Please let the animals have a voice.

Silvana Chiocconi	La Spezia, Italy	2015-03-11	A civilised country that claims to be a democracy must be transparent about all its activities, including animal welfare. All countries have a long way to go on this, but if the transparency that currently exists starts to be shut down, there comes a point at which a country can no longer claim to be a democracy. Its government loses credibility and authority. This bill will do nothing for the protection of animals, and will only allow the agri-industry to continue to flout existing animal protection laws as openly as at present. Is it really the purpose of the Australian Senate to prevent the public knowing the truth about how animals are treated?
Alyssa Dodge	Australia	2015-03-11	Because animals are just as important as humans.
Ryan Elders	Australia	2015-03-11	The point should not be to prosecute whistleblowers, but to eliminate immoral practices against any form of life.
Petrouchka Steiner-Grierson	Auckland, New Zealand	2015-03-11	I'm signing because animals abusers should not be protected.
Liz bellis	Australia	2015-03-11	animals deserve to not be treated like crap
Olivia Burton	Orem, UT	2015-03-11	Because I want to see humanity progress.
Sue Torlach	Perth	2015-03-11	Animal rights violations should be at the top of the agenda in Australia. Not something which is swept under the carpet. Any exposure of cruel practices should not be punished and care of these animals is a public issue.
Janine Koce	Cairns, QLD	2015-03-11	Animals are important to me. They have feeling and emotions and need our protection. Ag gag laws punish those who only try to have our current animal welfare laws adhered to. Don't waste our time, energy and money on new ag gag laws that only serve to protect the guilty animal abusers. Instead, use those resources to uphold the animal welfare laws already in place, but sadly not enforced.
linda corsi	Port Saint Lucie, FL	2015-03-11	Animals can not speak for themselves! Animal cruelty will continue if the truth is not told.
Suzanne Ward		2015-03-11	Animal farming (factory farming) If we must eat meat free range husbandry and animals rights only
Bronwen Agarwal	Hastings	2015-03-11	Hiding the truth is unacceptable and that is what the government wont's to do. Evil must be uncovered and stopped.
Jamie Muller	Auckland, Auckland, New Zealand, New Zealand	2015-03-11	This is disgusting. That people in this advanced world behave in this manner shows we have not evolved, in fact we have regressed.
chris olesen	Auckland, New Zealand	2015-03-11	Sickening... animal rights activists only expose a tiny % of the abuse that goes on... silence them and there really is no hope the presence of evil only exists when there is an absence of people able to do something but do nothing.... SHARED
Maryanne Scott	Melbourne, VIC	2015-03-11	The truth needs to known to protect all animals.
Sharon Sandoval	La Grange, CA	2015-03-11	I believe even if we do consume animal products, the animals should be cared for and not abused.
Kirstie Farenden	Perth, Australia	2015-03-11	It is hugely important that any injustices that animals are experiencing at the hands of humans is brought to light for the public to see clearly. Transparency is vital for any positive change to occur in the way other sentient beings are treated in this country.
Patricia Pacheco	Redwood City, CA	2015-03-11	It's sickening to see how these innocent animals are treated their entire short lives before being slaughtered.

Susan Henshall	Mount Macedon, Australia	2015-03-11	I'm signing this petition because we have an obligation in a wealthy and civilised society to protect animals and ensure they are treated humanely.
Elizabeta Dimeska	sydney	2015-03-11	isn't there enough proof that even with all the laws and protections today animal abuse still happens, what will happen when this is taken off the table and when people are stupid enough and sick enough to hurt an innocent animal where does it stop - with another defenseless human being or even worse a child? We need to strengthen the protection protocols not reduce them.

Linda Mayo	Appomattox, VA	2015-03-11	STOP BILL 2015 for the safety of the animals. We "DO NOT" protect the "ANIMAL ABUSERS". This bill is for no other reason but to protect the companies and the abusers who do disgusting, torture and abuse to innocent animals. It is outrageous that these "ABUSERS" will be hidden behind a law. "WRONG"...on so many levels. Thank you.

michael watson	Australia	2015-03-11	I am disgusted with the hidden cruelty and lack of compassion within the animal and poultry production ... I feel there should be more and more videos shown on TV of the stalls that pigs are forced to live in, and give birth in, and the disgraceful caged poultry, egg producers, and the disgusting over crowding in shed production, supposedly free range ... rubbish!!! They is so much cruelty that the public are not aware of or just don't see enough of it exposed. We cant pretend to be ostriches and stick our heads in the sand. It has to be shoved in our faces for something to be done about it.
Cat Mclean	Temuka, New Zealand	2015-03-11	I believe animal abuse awareness needs to be raised and stopped asap.
Cindy Jones	Geelong	2015-03-11	Freedom of speech...need I say more! Defenceless animals rely on it. Animal protection has come a long way because of it. Frances Boreland	Broken Hill, NSW	2015-03-11	It has been clearly shown that lack of public scrutiny and letting industry police itself is associated with significant risks to the broader community. If it wasn't for 'undercover agents' the live baiting abuses within the greyhound industry would not have been brought to light. Also, as a sometime consumer of animal products, I have every right to know how those products are produced so I can decide which producers to support and whether I want to use the product. The proposed Ag-gag bill gives a very strong impression that animal industries have something to hide.
Tamyka Mohoupt	Lawnton, Australia	2015-03-11	cruelty

Laura Dannemann	Gloucester, VA	2015-03-11	Where there are vulnerable beings there will be people who will abuse them, and those situations must be closely monitored regardless if they are public or private enterprises. The people doing the abuse will not expose their own actions, and those profiting from it will neither. So someone who represents the interests of the abused should be not only legally permitted but socially and politically encouraged as a simple matter of morality and human values. Please do not pass ag gag laws that make it unlawful for undercover investigators to witness, report, and record these tragedies. The abusers should be identified and prosecuted as any other criminal of society engaged in violent and harmful, even lethal behavior towards another living being. Ag gag laws protect the wrong people and encourage continued abuse which hurts all of society at the soul level.

Angela Merrifield	Como, Australia	2015-03-11	It's disgusting to think people who commit terrible crimes against animals could get away with it. Animals are defenseless and need our protection. People who commit these crimes need to be accountable for their actions. What will their next crime then be? Against children, the elderly or disabled people also unable to defend themselves. Do not allow these people to get away with unspeakable acts of cruelty, it is just wrong.

Bec Whiteside	Australia	2015-03-11	I'm against animal cruelty
Kim Coffey	Mt Samson, Australia	2015-03-11	If you effectively silence anyone from ever reporting cruelty, then cruelty will occur unabated. We need to ensure that people working with animals are accountable, and that they know they are always accountable. Their own good conscience cannot be relied upon 100%. What's to stop a person frustrated with their job from taking it out on the voiceless and defenceless creatures at their mercy? What's to stop a greedy boss who can see additional profit in cutting the corners of kindness from doing so? If humans always did the right thing we would need no laws, and no police, and no courts...and clearly that is not the case. When it comes to animal cruelty, the victims cannot ask for help, so the activists who obtain footage etc are their voice. If there was no cruelty, their cameras would catch nothing of significance anyway, so why should any agricultural industry, doing the right thing, fear cameras in their animal enclosures or 'processing' environments?
susannah mason	San Francisco, CA	2015-03-11	is the world turning topsy turvy? how can it be that cruelty gets protections and those who seek to expose cruelty, get punished? This is simply wrong.

Megan McCrindle	Chennai, India	2015-03-11	I'm signing because I greatly care about the welfare of all living beings. I do not eat meat or dairy, but even if I did, I would want to know that said animals were being treated humanely. Ag-gag laws are acknowledgments that atrocities are happening and that rather than doing something about them, people would rather fight to cover them up. People must know about the status of animal treatment in the livestock industry, whether they are for or against consumption of animals.
Lynette Singleton	Innisfail, QLD	2015-03-11	I thought we lived in a civilized, free country.

How are animal abusers any different to typical wife/husband beaters. Oh thats right Poor animals have no voice so its easier to keep hush hush. Appalling discracful. THIS LAW SHOULD NOT BE PASSED. LAWS NEED TO BE PASSED TO PROTECT ANIMALS And BIGGER PENILTIES NO MORE SLAPPING ON THE WRIST AND ALLOWING ABUSERS TO GET AWAY WITH THIS.

Beth Tump	Brisbane, Australia	2015-03-11	im signing this because I think it is a disgrace that the senate would even consider enacting such a policy. We need these independent investigators to continue to uncover corruption of official bodies and to stop the abuse of animals. If the farms are doing nothing wrong then they have no cause to fear!
Andrew Rose	Auckland, New Zealand	2015-03-11	Animal cruelty is something that should never be aided by the law, it should only ever be shut down by the law

Matt Sinclair	Australia	2015-03-11	<p>For animal to live it's whole life in agony, whether this comes about by being caged for life or other deliberate acts of animal cruelty, is just plain wrong. In the past, there has been one way to attempt to keep these animal abusers in check, by allowing animal cruelty investigations to take place at these institutions. Activists who undertake these investigations (mostly undercover) risk not only their safety, but their freedom, have allowed pictures and videos of these horrible enterprises to be seen by the general public, allowing for the better treatment of these poor animals.</p> <p>By introducing these 'Ag Gag' laws you are directly giving animal abusers the opportunity to do what they do best, abuse.</p> <p>Shame on you Liberal Senator Chris Back.</p>

Nanette Muir	Australia	2015-03-11	i care about animals. The way animals are treated is a measure of a civilised society.
Patrici Tankey	Australia	2015-03-11	While we eat animals to sustain our lives there is no reason for their lives to be untenable or cruel while they do that for us. These animals give their life for us, not because they want to but because we choose their fate for them. The very least we can do is respect their sacrifice. We should treat them with the respect they deserve for the benefit that they provide to us. Support those people who have the humanity to recognise the debt that we owe to the animals who support our lives and be a beacon for those who have not yet evolved to recognise that everything in life is connected and what goes around comes around.

Sez Cardis	Australia	2015-03-11	I am signing this because It is of utmost importance that animals bred for human consumption are treated humanely, ethically, responsibly and that their living conditions are subject to regular, thorough, spot checks, by animal welfare organisations as well as government regulators. Animal farms that have animals suffering need to be prosecuted. (All factory farming should be banned now). Animals need to be protected. The only way that evidence of animal cruelty comes to light are undercover investigations which expose countless examples of suffering and neglect that would otherwise be hidden from public view. I do not support this cruel, inhumane Bill (the Criminal Code Amendment (Animal Protection) Bill 2015. It is an absolute affront to decency. I am outraged. I have seen AG Gag laws in America legalise condone and protect animal abusers. Even when filmed from a public road. I do not want that here.

All industries need a watchdog, we all have a moral duty of care to protect animals that do not have a voice. Silencing those that oppose cruelty is to be in agreement with cruelty. One by one the government slowly erodes the rights of civilians without question. There must be questions and people must be answerable for their actions. Do not allow this covering up to go through. Allina Fox		2015-03-11	<p>Treatment by animals needs to be kept out in the open so incorrect treatment is quickly caught and corrected. This information must also continue to be investigated by private organisations such as Animals Australia to ensure thorough investigation takes place and the public is kept aware and involved. This is NOT just a government matter it is a PUBLIC concern and the public must be informed as we are the ones who are essentially supporting ill-treatment of animals through the purchasing of their products. If we are not involved we cannot choose where our support lies.</p> <p>Independant investigations and well as government investigations need to take place. Both parties need to be working together to tackle these issues which is becoming a growing concern amongst consumers like myself.</p> <p>If we cannot ensure that our animals are receiving fair treatment than we do not live in a modern, sophisticated society and our government is not doing it's job.</p> <p>I trust that you will uphold the values of animals and Australian citizens who decide who represents us in parliament.</p> <p>Warm regards, as any animal and human being appreciates,</p> <p>Allina Fox</p>

Vivienne Gower	Australia	2015-03-11	Covert monitoring and recording of animal cruelty had effectively put an end to some cruel practices; for example- live baiting for greyhounds and cage egg production. Respected organisations like the RSPCA appear to be unable to get the same results. This is about animal welfare. Animal abuse and animal abusers must be exposed. Bringing to light their cruel practices is in the public interest. A humane society is one we all want to live in- not one that protects those who carry out shocking abuse.

Melanie Alves	Orlando, FL	2015-03-11	Only politicians create laws that would crease transparency. If an action being committed isn't disturbing, why cover it up? Oh that's right, because the action of abusing animals is abhorrent. The politicians that support 'Ag Gag' law - Criminal Code Amendment (Animal Protection) Bill 2015 are the very same politicians that are getting paid/bribed by the executives at the dairy, egg, wool/animal hair, leather/skin, and slaughterhouse industries. You may try to shut our eyes, but there's someone always watching. Remember who you truly work for, Politicians

Margaret Setter	Liverpool, NSW	2015-03-11	I'm signing because I am disgusted with inaction on the part of state governments who turn a blind eye to appalling animal suffering in the intensive farming system. It's a disgrace that animal activists have to risk going to jail for revealing the suffering and neglect these innocent creatures are forced to endure. Some day, thanks to these activists, the exploiters will find themselves facing cruelty charges. Until then, It is up to the public to make an informed choice regarding what they as consumers are willing to support.

Blair Tyler	Australia	2015-03-11	I'm signing because animals, the most vulnerable members of our society, cannot speak out for themselves, and with the proposed Bill people won't be able to speak up for them either. There is nothing to be gained from a society that smothers those who try to defend the rights of others. We cannot claim to oppose violence in Australia is we continually turn a blind eye to horrific mistreatment happening on our doorstep. The law should be used to protect, not to make protection ever harder to obtain by those who need it most.

thanuri welaratne	Australia	2015-03-11	These investigations are vital to protecting animals and maintaing ethical practices regarding the care and treatment of animals. By criminalizing undercover investigations we run the risk of unethical practices continuing without notice. Without such investigations we run the risk of loosing the right the public has to transparency regarding unethical practices, it is our right as a society to have access to this information. Take for example the recent undercover investigation by animals australia into livebaiting in greyhound industry, this practice would have continued without the hard work this group had whilst going undercover.

Chris McGrath	Canberra, ACT	2015-03-11	I do NOT support any move to protect any animal abuser from criminal prosecution nor do I support any further changes to any laws or legislation! I cannot fathom why you would even consider removing any legislation or laws regarding animals where they are being abused or in regard to the killing of any animals and I WILL NOT accept any laws that allow any person to abuse animals! My party the "Your Australia Party" will fight for animals as one of our objectives so do not allow any such stupidity to occur!

Gina Lloyd	Sydney, NSW	2015-03-11	How dare this or any government ignore the plight of animals (or people for that matter) They all have feelings which should be respected even if they will eventually end up as a food source. Compassion and the wellbeing should be mandatory for all animals

Shirley Robinson	Australia	2015-03-11	I believe anyone that feels they have the right to abuse and be cruel to animals that can't speak out not protect themselves can easily turn on humans that are also defenceless as in seniors some women and children. The law for these low life's needs to be harsher. And to advise the public that these people are in their community is a good step to make them think before they even begin to abuse. Perhaps doing to them what they do to animals whether they be our companions etc it doesn't matter . No animal deserves to be abused !

If torturing other humans is immoral punishable by law, then why is it not illegal to cause animals to endure often worse tortures, when they cannot defend themselves, or call for help. How dare anyone consider criminalising investigations into animal cruelty, when those people conducting the investigations are the only hope for some animals to survive, the investigators should be praised if anything! Let the cries of animals be heard and defended!

Veronica Acosta	Los Angeles, CA	2015-03-11	<p>I would like to express my deep concern over the proposed introduction of so-called 'Ag Gag' laws - Criminal Code Amendment (Animal Protection) Bill 2015.</p> <p>These laws are nothing more than an attempt to protect those who abuse animals (both illegally, and within industry standard guidelines) and prevent consumers from making informed choices regarding what practices they choose to support. We do not need laws that punish and criminalise animal cruelty investigators.</p> <p>I believe the current laws are more than sufficient to protect private citizens from alleged trespassers and that the introduction of 'Ag Gag' laws would only serve to protect industries that for too long have freely gotten away with animal abuse.</p> <p>The public has every right to be aware of what they choose to participate in, and it is only through the efforts of animal activists that they are able to do so.</p> <p>I implore you to protect the right of the public to know the truth by opposing the introduction of Ag Gag laws.</p>

Rebecca Reggars	Melbourne, Australia	2015-03-11	Animal cruelty is inexcusable. Humans can defend and take care of themselves, but we have made animals defenseless and entirely dependent on us for survival and protection. We have, thus, made it our civic and moral responsibility to protect them. To allow cruelty, is to implicitly endorse it, and if people endorse animal cruelty, then the term "humanity" becomes a sad irony. Animal cruelty is inhumane. Please do not forget what that really means. You're in a position of responsibility to stop the prolonged and unjustifiable torture of innocent, defenseless animals. What possible reason could there ever be to ignore this?

There is no reason in this world that will ever make the suffering of animals ok- my heart and soul aches every time I think of what kind of cruelty is being committed in the world at all times. How on earth is it possible for a human being (the self proclaimed, most intelligent being) to behave so so ignorantly toward the suffering of so many or so willing to turn their back on this and allow it to continue behind closed doors? Torture is torture and murder is murder... No matter what being its comitted on... So stop it and make it punishable- do not cover it up!! Thank you

Sammy Grant	Australia	2015-03-11	the problem is not those who risk everything to save the animals and expose the cruelty, the problems is those that IMPOSE the cruelty. The heartless monsters who benefit off suffering, torture and murder. We are not better than those animals. We are just a different species. Those that impose harm are ESPECIALLY not better than innocent animals who didn't do anything wrong, they didn't choose that life. The animals are sentient beings with blood and brains and they feel pain. The authorities obviously aren't doing ANYTHING because if they were, we wouldn't need ordinary people to expose such horror. The system is corrupt and careless. They don't care. We need to care. Humans have the ability to care but they choose to just ignore their true instincts and torture animals or ignore what is going on. This horrifying stuff is actually happening. THAT'S ILLEGAL TOO. What's more horrifying? Stepping on a companies property to expose illegal and unethical cruelty thus saving the animals and ending the companies ability to be so cruel OR torturing, beating, harming, teasing, hurting, prodding, stabbing, shooting innocent animals for profit or cos it's 'fun'. These exposERS deserve praise NOT prison. Mr Back how can u not understand this? Look at the bigger picture. Focus ur influence on ending animal cruelty not imprisoning those who are trying to.

Jenny Walker	Grange, Australia	2015-03-11	Animals are sentient beings and their treatment by us behind doors reflects what kind of humanity we actually have. This bill is only going to serve animal abusers. Don't persecute rescuers, people who so care about vulnerable animals that they will do what they can to try to help them. The pursuit of true justice sometimes has meant upsetting some people and institutions. This is a terrible bill which makes me feel afraid for what kind of country we are becoming, insensitive to the pain of others in the interest of business.

I strongly and respectfully request that no legislation is enacted that reduces the ability of animal rights organisations to investigate the violation of laws that see animals abused,

Every single one that has been shut down has been shut down for a reason and it is obvious to everybody that there are plenty more out there putting precious animals at risk of disease and reducing their natural way of living. The conditions of puppy farms are outrageous and to me is seen as a humiliation as a human being to know that people in this very country are participating in such actions and showing no way of love, compassion and attention that these fur friends need. We as a country must put this to an end, we are the voice of these helpless animals. Please take my words in consideration.

Ellie Prest	Australia	2015-03-11	I'm Signing because animals, like humans, breathe, make conscious decisions, learn behaviours, and are products of the environment that they are exposed to. Unlike humans, animals offer unconditional love and care but no animal has a voice or a right to protect itself. It is for the greater good of humanity and for the better of our country that our animals are just as safe and protected as we are. The notion to favour people who do acts of criminal wrong against loving, living and breathing animals, is one of insanity and undermines not only human rational and logical thinking but the judicial system and its integrity.

Bryanna Mischler	Australia	2015-03-11	just because humans can have conscious thought and have thought-out actions, does not give us the right to torture other animals for our pleasure. Animals feel pain just like we do. Us being capable of controlling other animals does not mean we are granted this opportunity to do so. We are the only beings that can decide to change this and stop the suffering therefore we have the responsibility and obligation to do so. All animals deserve to live free from pain. So many shelters are overrun with abandoned dogs, adopt from there!

Monique Struik	Roosendaal, Netherlands	2015-03-11	This is 2015... About time people stop being ignorant and shutting their eyes because of their own interests. Animals are suffering horribly, and Australia should open its eyes and its hearts, and so should the rest of the world. It's absolutely disgusting that these practices are still going on, and that people couldn't care less where their meat or their pets are coming from. Why not make Australia the example for the rest of the world and stop killing sharks, kangaroos, etc and abusing sheep and other cattle!! There are more important things in the world than just money, and why wouldn't anyone make a good earning while treating their animals "humanely"! Treating dogs as breeding machines is disgusting and utterly cruel, and so is anyone who buys a pup from these puppy factories!

Rose Wilson	Australia	2015-03-11	Because I am passionate that every animal should treated in a humane way! This is reflection of us as a country, how can we be respected as people if we don't even have the decency to treat reliant animals well? If anything we are the ones that domesticated and bread these dogs further so we are the one that should take responsibility and treat them how they should be treated. This applies for every animal across the Australian region.

Monique Fuller	Australia	2015-03-11	animals have rights too
Jodie Spencer	Melbourne, VIC	2015-03-11	I'm signing because I believe how we treat other species on this planet is a reflection on how some people believe that their lives and livelihoods are more important then anyone else's, if a human kills another human in a majority of countries they are protected by human rights laws but if a human is killed by a shark we feel the need to inilate that species (even though we entered their domain) I'm signing because it makes me sick to my stomach to see how we exploit domestic and native animals for profit, with very little to no consideration for their fate or existence, we just take take take, well guess what I'm signing this because I want to be one of the few strong voices that stand up and say NO, NO more will I stand by and watch the greedy and ignorant abuse defensless creatures that's only crime in this world seems to be just merely existing.

I feel the general public have the right to be given the opportunity to be aware of the practices these industries are committing on defenceless animals. By introducing the Ag Gag laws, not only are the rights of our Australian Animals at more risk, so are my rights to know the truth. Isn't it time we started listening to the animal activists instead of constantly trying to silence them, when we have seen time and time again that they speak the truth those who have no voice. Yvette Thompson	Australia	2015-03-11	I'm signing because I strongly believe that the bill to allow animal abusers get away with cruelty and for investigations to be made criminal is a step backwards in our society. We do not need puppy factories nor any other pet breeding factories which animals are forced to be pregnant and live in unhygienic conditions, denied the basic rights that a human takes for granted. Often the puppies that are sold for a quick profit end up in shelters or abandoned because they are an unwanted gift, and as a result, animal shelters are overflowing which results in high statistics of euthanasia. Please listen to our voice, my voice which I choose to use on behalf of the puppies, dogs and other animals who can not use their's, please hear me and act as a government, a representative of what I support, what I want. Please ensure that puppy factories and other factories alike are made illegal and criminalise the actions of those who run them, and support the investigations who want to stop the cruelty and unnecessary breeding.

Claudia Kette	Australia	2015-03-11	I believe in the rights of every living creature and believe an animals life, big or small, able to voice themselves or not, deserve to be treated with respect. These laws simply protect the greed and abuse of power that is such a strong, disgusting human tait. Why should these animals not live as good a life as any of us? Please do not pass these laws, if so, it is essentially a law that legalises the abuse of human power, neglect of human responsibility. Thus, condoning the torture and abuse of innocent lives.
Hannah delo	Australia	2015-03-11	we need to change this!
Caryn Kettle	Perth, VIC	2015-03-11	Animal cruelty is unnecessary and cruel. It's not fair to the animals and is unhealthy for those who benefit from it. For example it is a well known fact that when an animal is killed for instance, the spirit of the animal's suffering is transferred through the animal. We then eat this product with the bad 'energy' in it. No wonder cancer is so rampant in our society today!

lisa landa	Corpus Christi, TX	2015-03-11	<p>Yes, God made everything that lives on the earth — including the animals. In the beginning, the Bible says, “God said, ‘Let the land produce living creatures according to their kinds: livestock, creatures that move along the ground, and wild animals....’ And it was so” (Genesis 1:24).</p> <p>And yes, the Bible commands us to take care of the animals under our care. One of the signs of a righteous man, the Bible says, is that he takes care of his animals (see Proverbs 12:10). Even the animal of an enemy was to be treated kindly: “If you come across your enemy’s ox or donkey wandering off, be sure to take it back to him” (Exodus 23:4). One reason God commanded His people to rest one day out of seven was so their animals would be refreshed (see Exodus 23:12).</p> <p>In fact, the Bible says we must never treat any part of God’s creation with contempt. When we do, we are indirectly treating our Creator with contempt. Instead, God calls us to be stewards or trustees of His creation, and the Bible reminds us that we are responsible to Him for the way we treat it. We’ve often forgotten this — but it’s still true, and when we ignore it we not only hurt God’s creation but we also hurt ourselves.</p> <p>Most of all, however, God calls us to put Him first in our lives. He loves us, and our greatest calling is to respond to His love by opening our hearts and lives to His Son, Jesus Christ.</p>

Kerry McDaid	Bristol, United Kingdom	2015-03-11	Criminalising people who investigate the welfare of these animals is unnecessary and prevents consumers from making informed decisions about what they buy and where it really comes from. If the practice of animal cruelty and battery farming is ever going to be reformed or banned, that process starts by changing the habits of those who buy the meat. This can only happen when they are presented with ALL the facts! That aside, I defy anyone who has seen pictures of these poor creatures not to be moved by the sheer horror of the conditions in which they are forced to live out their short lives.

Government should be protecting those who have their lives taken in order to provide food for the masses (who "choose" to eat them, but do not "need" meat, eggs and dairy products in order to live happily and healthily), and not protecting the farmers who profit from the animals' deaths.

Madylene Kim	Australia	2015-03-12	<p>To all politicians,</p> <p>I'm am against any amendment that stops any investigative journalism or whistleblowers from doing this work that shows the public any cruelty to animals wherever it may take place. And, also have the right to give this information to whoever they want. Governments and other bodies fail to protect animal cruelty,</p> <p>for example: farmed animal; in the sea (sharks / Great Barrier Reef); Koala cull SA; live export; greyhound industry - the list goes on. These documentaries make the public aware of what is going on otherwise they would never know. Also, it is again an attack on 'Freedom of Speech' - corner stone of Democracy!</p> <p>Regards</p> <p>Chris Burton</p>

kieran mckenna		2015-03-12	Laws should be there to protect whistleblowers and if farms are found to be in breach, evidence should be admissible. If the farm is not in breach of animal cruelty protection laws, then I highly doubt anybody is attempting to break into them. These people work on information received. It is just fear mongering for members of parliament to state that trespass is illegal and will increase without these laws. It will only increase to the farms that deserve to be brought to justice, and why are they being protected??

Simply humanity and respecting other species oblige to investigations, so that animal abusers are going to be charged in consequence. Do not let hidden abuse happen please. The more we value money and the less we value life and morals the worse society becomes until one day no one is safe at all. It won't matter who you are, how much money you have, everyone will be at a disadvantage just because no one cared or cares.

It doesn't matter that I live in Scotland I will find out what you do about this, you cruel Scumbags!
Eliza W	Melbourne, VIC	2015-03-12	This proposed law is a terrible restriction on freedom of speech and the right of people to know how animals in the agricultural sector are treated. Instead of banning animal cruelty investigations, parliament should introduce a bill which would dramatically increase the number of investigations into these establishments.

Most people have absolutely no idea what is going on and they would be horrified. This is not a hit at farmers - it is just suggesting things could be done in a much better and compassionate way. Torture is not an option and the more people who are aware of these atrocities may be able to put an end to unacceptable practices.

Please help innocent animals thrown into situations no one could be expected to endure.
Narelle Carter	Australia	2015-03-12	this is simply crazy, supporting cruelty is what the govt is doing, we cannot support the govt when they make decisions like these. This is exactly the same as when an intruder breaks into someone's else, they absurdly have more rights than the victim.

katelyn perks	Australia	2015-03-12	Animals do not deserve to live like this, these humans that own these farms r disgusting.
Mitchell Dormont	Monroe Township, NJ	2015-03-12	I'm signing because animals are sentient beings, just as the animal called Homo Sapiens is, and they deserve to be treated with respect, whether they are going to be butchered, or not. Agriculturalists may find it inconvenient to have people investigating their treatment of animals, but if they treated animals with respect, and caring, in the first place, they would have no problem with it. The situation can be boiled down to: If you act unethically, or break the law, those in your society have the right, if not responsibility, to find you out!

They have feeling, they have families, they have souls, what gives humans the right to exploit their needs and take advantage of an industry that should not exist. If this bill is brought in it would mean that a lot of innocent animals lives will be lost. And even 1 animal life lost is a tragedy.

Sandra McCord	Australia	2015-03-12	there is absolutely no excuse in this world for animal cruelty. Those who abuse or cause harm to any other living creature should be brought to book. It is disgusting, shameful and not what any human should be proud of. If you ignore acts of animal cruelty and violence, you are absolutely no better than the perpetrators. You are indeed worse. Where is your sense of compassion, honour and justice? No good and decent man or woman would permit cases of cruelty to go unpunished. People that harm animals have a greater propensity to harm humans. Is that OK too? Please do something and not permit these shameful acts to go undetected and unpunished. lynn charlton	auckland	2015-03-12	Law enforcement agencies have poor capacity, due to legal constraints, funding and sometimes will, to catch animal abusers. Members of the public however can provide such information and should not be penalised for doing so. How utterly bizarre it would be to stop offenders being caught by making criminals of those members of the public doing the right thing and providing evidence! This would be a statement of intent to allow animal cruelty to continue unabated. It would be a statement of the wish not to know what is going on and a declaration that animal cruelty is OK. Please see sense and reconsider.

Kathryn Wheeler	Auckland, New Zealand	2015-03-12	As humans it is our responsibility to ensure the welfare of our planet and everything on it. Animals *are* abused wherever and whenever they are used for human 'benefit'. It is our responsibility to hold the abusers accountable.
sarah donnelly	Australia	2015-03-12	Cruelty to animals must stop. Human being are a disgusting race, purely breeding animals just to slaughter them.

Leanne Porter	Forest Hill, Australia	2015-03-12	I am against this unjustified form of censorship. Living in a democracy means people have the right to investigate and find information about what is going on in our country. We do not vote for governments so that they can make laws to cover up information that is relevant.Our country's democratic well-being depends on the freedom to expose injustice, brutality, prejudice, ill-treatment of both animals and humans living here. This proposed legislation would take us a step closer to living in a fascist state where people can be punished and imprisoned for exposing evil and corruption.
sanaka Loransuhewa	sri lanka	2015-03-12	The Australian Senate is currently considering a bill that will PROTECT ANIMAL ABUSERS and shut down animal cruelty investigations - the Criminal Code Amendment (Animal Protection) Bill 2015.
Emma Wilson-Hill	Auckland, New Zealand	2015-03-12	<p>This is disgusting. Stop trying to hide humanity's mistakes and deal with the consequences up front, let's move along as a species and stop treating everything like</p> <p>Animals should not be forced to live in torturous conditions - they wouldn't choose to live like this in nature, and it's a bleak reflection on humanity that we subject them to endlessly terrifying experiences. Not allowing public discussion and retribution on issues always ends badly, and it is our responsibility to be the guardians of animal welfare as governments clearly are not reliable or honest enough to do it autonomously. Such is the nature of power etc etc, this bill is a load of . END OF.</p>

Sean Smith	Adelaide, Australia	2015-03-12	If these laws are passed, it will be a blatant admittance to the ill-treatment of all animals in Australia, and the public will not stand for it. The demand for meat is already going down, and this backward law will only see it on a steep decline. We will keep standing up for what we believe in.
Elise Hudspith	Perth, Australia	2015-03-12	Ignorance is disgusting.
Sharon Harvey	Australia	2015-03-12	Because humans can't be trusted when profits are involved. Seriously - this would be a very very bad mistake. Instead you should be banning factory farming!

Anne-Marie Hardwick	Australia	2015-03-12	These laws completely miss the point. We only have whistleblowers and covert surveillance because we have cruelty and inadequate regulation.
Sandra Louise	Australia	2015-03-12	isn't it obvious?

This is truly revolting & these people should be ashamed of themselves
Tonii lang	Australia	2015-03-12	these puppy farms are disgusting.!!!
duran Tipene	Greystanes, Australia	2015-03-12	The people/company hired to Carry out such inspections on behalf of the government are obviously doing an inadequate job, they are for unknown reasons (that being that they may be subjected to working within their jurisdiction) are unable to catch these inhuman acts being carried out on these poor animals. Therefore if going undercover seems to be the only effective solution/method in catching these culprits, I don't see how changing the law to suit the culprit will have any positive effect.

Nick Parsons	Sydney	2015-03-12	Animals have always had equal rights until humans took that away from them. Penalties for abuse should be equal of that of a human abuse case. JUSTICE FOR ALL ANIMALS should be a natural right for them.

Julie Hardy	Thornbury, Australia	2015-03-12	<p>I would like to express my deep concern over the proposed introduction of so-called 'Ag Gag' laws - Criminal Code Amendment (Animal Protection) Bill 2015.</p> <p>These laws are nothing more than an attempt to protect those who abuse animals (both illegally, and within industry standard guidelines) and prevent consumers from making informed choices regarding what practices they choose to support. We do not need laws that punish and criminalise animal cruelty investigators.</p> <p>I believe the current laws are more than sufficient to protect private citizens from alleged trespassers and that the introduction of 'Ag Gag' laws would only serve to protect industries that for too long have freely gotten away with animal abuse.</p> <p>The public has every right to be aware of what they choose to participate in, and it is only through the efforts of animal activists that they are able to do so.</p> <p>I implore you to protect the right of the public to know the truth by opposing the introduction of Ag Gag laws.</p>

The routine abuse that they suffer is horrendous and the proposed bill only serves to protect those who abuse animals in factory farming, not the animals themselves. Dr Fiona McAllan	Randwick, Australia	2015-03-12	There is a great need for consumers to know how animals are suffering in factory farming conditions, and how unnecessary this is, and so they need to have regulations that both protect animals and educate consumers how to choose more ethically farmed food for consumption. Regulations about farming practice and adequate labelling for consumers is crucial! NOW! We need to stop the unnecessary cruelty to these sentient creatures.

Amber Lynch	Australia	2015-03-12	I am signing because I strongly believe that if the true side of animal treatment is hid from the public eye, nothing will ever be done about the treatment and it will only get worse over time and people will become more violent. Didi French	Perth, WA	2015-03-12	What has humanity evolved into, where perpetrators of diabolical suffering and cruelty can have protection from the Government of the day? Where are the traits which deem us to be a civilised species? There can be no place for Ag-Gag laws in a civilised society, so if this Bill passes what does that make us? Just cannot comprehend that this is happening in the 21st century, SHAME on all those involved in the pursuit of relegating SENTIENT BEINGS to nothing more than a commodity. Ashamed to be an Australian!!!
Elkie Hay	Australia	2015-03-12	I'm signing because this has to stop. It's not what the people of 2015 want. We want animals to be respected and treated as they should be. It's not up for discussion.
Jennifer Jessen	Helensvale, Australia	2015-03-12	Without under-cover investigations, issues that are abhorrent when exposed to the public arena, remain hidden in the dark underground world where animals suffer horrific abuse on a large scale. We seek a moral and compassionate society, there is so much that is hidden that should and must be revealed, it is mind numbing to what is further enabled by keeping these most important issues of our times, covered. Ag- Gag legislation's will enable animals to continue to suffer on a large scale and that is unacceptable in this century!

We shouldn't be punishing those who seek to expose animal cruelty. We should punish those who commit these terrible acts. Why don't we start acting like the intelligent beings we are supposed to be and stop exploiting innocent animals. Put yourself in their place.

Simone Dehaas	Riddells Creek, VIC	2015-03-12	Animals are sentient beings. They feel pain, they know torture. We owe it to them to protect and be their voice.
duran Tipene	Greystanes, Australia	2015-03-12	The people/company hired to Carry out such inspections on behalf of the government are obviously doing an inadequate job, they are for unknown reasons (that being that they may be subjected to working within their jurisdiction) are unable to catch these inhuman acts being carried out on these poor animals. Therefore if going undercover seems to be the only effective solution/method in catching these culprits, I don't see how changing the law to suit the culprit will have any positive effect.
