COMMITTEE

Adequacy of existing cyberbullying laws

Hearing held in Melbourne

WEDNESDAY, 7 MARCH 2018

Senator STEELE-JOHN: And you are actually delivering that training [*around victim based crime*] currently?

Cmdr Cameron: I can speak absolutely on behalf of the Australian Federal Police. We have a specific victim based crime continuum that absolutely recognises vulnerable victims. And, as I mentioned, that skill development goes more broadly beyond cyberbullying investigations but certainly to any victim based crime that we investigate.

Senator STEELE-JOHN: Would you be able to provide the details of that program to the committee on notice?

Cmdr Cameron: Yes. We'd be able to take that on notice.

Response:
