Let's remember the ethos of the AMA: "The doctor's primary duty is to act in the best interests of patients. In order to do this, doctors must maintain their professional autonomy, clinical independence, and integrity. Relationships between doctors and industry must not compromise, or be perceived to compromise, the doctor's professional judgement, capacity to serve patients' interests, or the community's trust in the integrity of the medical profession.

Doctors are trained to think independently, to make decisions, and to discharge their duty of care in the best interests of the patient".

Dear Sir/Madam

I am asking the Prime Minister Mr Malcom Turnbull to repeal the proposed legislation that will force lower income families into vaccinating their children in order to continue to receive the much needed financial benefits such as family tax benefit, child care rebate etc. This is no other than coercion.

Australians have always prided themselves in being a democratic country in which each individual has freedom of choice. Coercing families that are questioning the safety of vaccines these days and the efficacy of vaccines by taking away the financial help which their very own tax money paid to the government is helping to fund is plain and simply **WRONG**.

It is also **WRONG** for our politicians to start name calling responsible parents who are questioning the safety of today's vaccines and the efficacy of them "anti-vaxxers". It is the responsibility of parents as part of being a good parent to question the safety of **ANYTHING** to do with our children in order to protect them.

So not only is it morally the right and responsible thing for Australian parents to do in order to protect and keep our children safe – to question the safety and efficacy of vaccination but **MANY** brave, credible and respected medical experts are also questioning the same!

The USA government alone in 2011 gave vaccine manufacturing companies \$5.7 Billion! Who says there is no money in vaccines! <http://vactruth.com/2012/11/30/2011-billions-vaccine-manufacturers/>

And Dr Mercola says: The vaccine industry seems to view the 308 million people living in the United States as little more than pin cushions for their profitable vaccine products.

Pharmaceutical [profits from swine-flu-related drugs alone have soared – with earnings between \\$10 billion and \\$15 billion](#) in 2009, according to estimates from investment bank JPMorgan.

A report from 2007 entitled "[Pipeline and Commercial Insight: Pediatric and Adolescent Vaccines](#)," written by vaccine analyst Hedwig Kresse, makes some interesting points about the future of vaccine profits.

<http://articles.mercola.com/sites/articles/archive/2010/11/04/big-profits-linked-to-vaccine-mandates.aspx>

The Australian Federal Government has unveiled a \$26 million package aimed at boosting vaccination rates among children as part of next month's budget.

The money will be spent on **incentive payments for doctors who vaccinate overdue children**, a national vaccination register and a communication campaign. This is lunacy, you are not supposed to give incentive/bribe/ interfere between the relationship between a doctor and patients when the ethos of the AMA say that “The doctor's primary duty is to act in the best interests of patients. In order to do this, doctors must maintain their professional autonomy, clinical independence, and integrity. Relationships between doctors and industry must not compromise, or be perceived to compromise, the doctor’s professional judgement, capacity to serve patients’ interests, or the community’s trust in the integrity of the medical profession.

Doctors are trained to think independently, to make decisions, and to discharge their duty of care in the best interests of the patient”.

This creates a conflict of interest at the very least! But we also see how the government is acting in the best interest of the vaccine manufacturing companies!

DR WRATH HEALTH FOUNDATION :

The Laws of the Pharmaceutical Industry

The main principles governing the pharmaceutical “business with disease.” It is not in the financial interests of the pharmaceutical industry to prevent common diseases – the maintenance and expansion of diseases is a precondition for the financial growth of this industry.

“The marketplace for the pharmaceutical industry is the human body – but only for as long as the body hosts diseases. Thus, maintaining and expanding diseases is a precondition for the growth of the pharmaceutical industry”

The human body SHOULD NEVER be viewed as a market place! And when parliament is

making their decision we ask them that they make a MORALLY correct decision according to our democratic laws, values, independent critical thinking and their duty TO SERVE THE AUSTRALIAN PUBLIC and NOT the vaccine manufacturing companies' revenues.

http://www4.dr-rath-foundation.org/PHARMACEUTICAL_BUSINESS/laws_of_the_pharmaceutical_industry.htm

Please read and listen to the lectures and interviews of all the Medical experts below who are ALSO questioning the safety and efficacy of vaccines AND WHO SAY THEY WOULD NOT VACCINATE THEIR OWN CHILDREN. People's level of income should NEVER be a deciding factor when it comes to decision involving people's health.

This is an Australian documentary: >>>

"Do vaccinations cause more childhood diseases than they prevent? If you have small children in your family, you owe it to them to become aware of these startling facts. This hard-hitting video will shock you. The truth it reveals is that vaccinations do not reduce the incidence of childhood diseases. To the contrary, they increase them. They can also cause a multitude of illnesses that are far worse than the childhood diseases themselves. This program was produced in Australia and features contributions from medical doctors, authors, researchers, and victims. If you have small children in your family, you owe it to them to become aware of these facts." <https://www.youtube.com/watch?v=Muhra7ZcAa8>

DR REBECCA ROCZEN CARLEY

Dr. Rebecca (Roczen) Carley received her Bachelor's degree in Diagnostic Ultrasound, attended medical school (and received the Samuel L. Kountz award for clinical excellence in surgery at graduation), and trained to be a general surgeon at State University of New York at Downstate Medical Center in Brooklyn. Dr. Carley also worked as an attending Emergency Room physician at Kings County Medical Center in Brooklyn (which is the primary training affiliate for Downstate students), and is the largest hospital (and busiest trauma center) in the United States.

After Dr. Carley's only child was brain damaged as a result of inoculations he received, Dr. Carley learned how to reverse the damage with homeopathy and other natural supplements, and subsequently realized that inoculations of disease are causing the corruption in the immune system which leads to all autoimmune diseases and cancer. Dr. Carley has developed the Hippocrates Protocol which has successfully reversed all autoimmune diseases (including autism) and cancer in over 2,000 clients (including pets) over the past 9 years. She has written the definitive paper explaining the mechanism whereby inoculations with disease are causing VIDS (Vaccine Induced Diseases), which has been featured in multiple publications all over the world and is available under the title "Inoculations: the True Weapons of Mass Destruction" on her website at www.drcarley.com. She has offered a \$10,000 reward for any vaccine promoter to come on her internet radio show and refute the documents she has authored. No one has stepped forward to do so. Dr. Carley has been qualified in court as an expert witness in VIDS, Legal Abuse Syndrome, Vaccinology, and child abuse.>>>

DR RUSSELL BLAYLOCK

How Vaccines Harm Child Brain Development - Dr Russell Blaylock MD

"Let us keep pretending that there are no alternatives" Vaccines, flu, Vitamin C, Vitamin D, nutrition

Russell Blaylock, M.D., a nationally recognized board-certified neurosurgeon, health practitioner, author and editor of the Blaylock Wellness Report. Dr. Blaylock is the author of Excitotoxins: The Taste That Kills and Health and Nutrition Secrets That Can Save Your Life. Alex also covers the latest news and takes your calls.

<https://www.youtube.com/watch?v=rOnGnAhGAJw>

If you are a parent of a baby or young children, expecting a baby or if you are a health professional you need to watch this lecture filmed at a Radio Liberty Seminar in October 2008 in which Russell Blaylock MD discusses the effect of vaccines on the developing brain and his concerns about the increasingly crowded infant vaccination schedule.

Dr Blaylock also provides compelling arguments why the vaccination of pregnant women is harmful and a hidden cause of neurological disorders. He also discusses the toxic ingredients in vaccines such as formaldehyde, mercury, aluminum and MSG and the detrimental effects they have on the brain and nervous system. He also touches on other vaccine-related topics, such as the conflicts of interests influencing vaccination policy due to the influence the pharmaceutical industry exerts on the government and the pharmaceutical industry, the polio epidemics in Africa, mercury toxicity and other medical scandals.

CDC officials claim vaccines are safe and effective. Is that true? If vaccines are safe, why has the incidence of autism increased from one case of autism in 10,000 to one case of autism in every 50 American children in the past few years, in parallel with a huge increase in the number of vaccines the government is promoting as part of the childhood vaccination schedule?

If childhood vaccines are safe, why are well over half a million vaccinated American children afflicted with autism, while non-vaccinated Amish and Mennonite children rarely suffer from the disorder? Why has the incidence of asthma, allergies, autoimmune disease, Type 1 diabetes and neurological conditions also dramatically increased in vaccinated children? >>> <https://www.youtube.com/watch?v=7QBcMYqlaDs>

A Possible Central Mechanism in Autism Spectrum Disorders: Interaction of Activated Microglia, Excitotoxicity, Reactive Oxygen and Nitrogen Species, Lipid Peroxidation Products and the Role of Elevated Androgen Levels in Autism Spectrum Disorders

by Russell L. Blaylock, MD
374 research studies cited

Abstract

The autism spectrum disorders are a group of related neurodevelopmental disorders, which have been increasing in incidence since the 1980s. While a large mass of information and data has been forthcoming, still a central unifying mechanism has not been offered. A review of the studies on autism spectrum disorders disclose a number of findings that are interconnected.

Most important appears to be disruption of brain cell calcium homeostasis by a number of events, such as excitotoxicity, androgen excess and elevations in inflammatory cytokines. Free radical generation and lipid peroxidation is a common event in examined cases of autism spectrum disorder. Recently, researchers have discovered high levels of androgens in a group of autistic children and that pharmaceutical lowering of androgen levels can produce rapid and dramatic improvement in a number of cases. Several studies have shown worsening of neurological injuries under conditions of high androgen levels. In addition, high androgen levels

have been shown to trigger calcium accumulation in neurons through a special membrane receptor >>>

GARTH NICOLSON - MICROBIOLOGIST

interview, (Sudbury, Ontario Aug. 30, 2008).

Will YOUR doctor tell you about weaponized mycoplasma? About engineered mycoplasma pathogens in vaccines? Or will he or she treat your symptoms, hook you up for life (or death) on high-priced (and often dangerous) drugs?

What's the real story of Chronic Fatigue Syndrome, Gulf War Syndrome, AIDS and other degenerative diseases such as Alzheimer's, Crohns, Parkinson's, Huntington's, Lupus, Lyme disease, fibromyalgia, rheumatoid arthritis, multiple sclerosis, diabetes (type one) and MANY others?

If your doctor doesn't know about (or isn't CURIOUS about) US chemical & biological warfare, Operation Paperclip, MKNAOMI, MKDELTA, Texas prison inmates being used as guinea pigs to test genetically engineered pathogens (mycoplasma fermentans incognitus), then get another doctor. You can't afford not to know what Dr. Nicolson is carefully, cautiously, telling us.

Nicolson was a speaker at the 9th Common Cause Medical Research Foundation Conference, Sudbury Canada (Aug 29-31, 2008).

GARTH NICOLSON is a whistle-blower. The kind that movies won't be made about because the conspiracy is huge, on-going, and reaches to the top. It reveals a key element (a silent weapon) in the quiet war on the 'lower orders.

Deadly Vaccines: Garth Nicolson, microbiologist

Are vaccines contaminated? Are they potentially deadly? Garth Nicolson, whistle-blowing microbiologist (see THE DAY LILY PROJECT), addresses these questions in this excerpt from Dr. Nicolson's talk at the Common Cause Medical Research Foundation Conference in Sudbury, Aug 29-31, 2008. >>><https://www.youtube.com/watch?v=6e2ljD3hkhg>

Deadly Mycoplasma in Vaccines - Garth Nicolson_ microbiologist >>> <https://www.youtube.com/watch?v=7W4tu5qgaWA>

This is an excerpt from the Snowshoe Documentary film: Mycoplasma - Dr. Garth Nicolson-microbiologist, this film is available in it's entirety at the You Tube link below:

DR SUZANNE HUMPHRIES

The Brilliance of Dr. Suzanne Humphries on The Dangers of Vaccines >>> https://www.youtube.com/watch?v=McfXd_Xuoj5

Interview with Dr Suzanne Humphries about vaccines >>> <https://www.youtube.com/watch?v=XUORtLSg19E>

There will come a day when all Doctors will understand that vaccination is based on speculation, opinion, and grand assumptions, not real science. When that day comes, more doctors like Dr. Suzanne Humphries will speak out on the dangers of Vaccines.

She perfectly sums up the problem with vaccines in a nutshell. Dr Suzanne Humphries, a practicing nephrologist (kidney physician) says the vaccine industry isn't giving people both sides of the story, and parents need to get informed before subjecting their children to vaccines that can potentially cause serious harm or even death.

DR. MARK GEIER MD

THE TRUTH ABOUT FLU SHOTS with DR. MARK GEIER MD

<https://www.youtube.com/watch?v=aFPVviqOJ6Q>

Dr. Mark Geier exposes the FLU VACCINE FRAUD. He is not anti-vaccines, but he is anti-flu shots. His reasoning is accurate and reveals the obvious collusion between drug companies, the FDA and CDC. Dr. Geier is an MD and has a PhD in genetics and spent 10 years working at the National Institute of Health. He was a genetics professor at John Hopkins University and is also the author of over 150 peer-reviewed publications.

Dr. Geier worked on vaccine safety and efficacy for more than 30 years and was one of only four scientists that worked to replace the DTP vaccine that caused every child to become sick with a high fever at the time of vaccination. The revised DTAP vaccine, which is a more purified vaccine minus many of the dangerous adjuvants and now causes illness due to fever in only 3% of those vaccinated. Still, I would suggest we all stay clear of vaccines that weaken the immune system and have thimerisol, formaldehyde and other neurotoxins that cause disease.

In fact, Dr. Geier explains the flu shot causes Guillain-Barré Syndrome, and it is not effective in preventing the flu. So why take it? Because Big Pharma wants to make \$\$\$\$.

Geier also explains that the CDC does not follow the law for vaccines in requiring long-term safety testing for flu shots like they do with other vaccines. After all, it is impossible to test a vaccine that changes every year. So the flu vaccine is really an experimental vaccine that they want to give out to 300 million people every year to make the \$\$\$\$.

In addition, there are no studies showing the safety of giving the flu vaccine to the same person every year, but the Big Pharma propaganda jab campaign is already in full swing. You cannot drive by a pharmacy in the country, either a chain or small drug store that doesn't have signs EVERYWHERE pushing for not only flu shots, but shingles shots, Gardasil--- you name it. All without waiting!

Dr. Geier points out that the CDC is in the business of distributing flu vaccines, because they represent 300 million doses per year, whereas all the childhood vaccines together only number 20 million. Profit motive.

After all, the head honchos at the CDC all work in the revolving door system, moving from Big Pharma companies back and forth into the CDC and FDA to keep the fraud going. This is big business that has very little interest in keeping Americans safe, but who are very interested in getting thier poisons sold.

Now with Obamacare, not only can poor folk get a free cell phone, there is easier access to get vaccines, for all, for FREE. This is also being advertised right outside your local Walgreens.

One must ask why Big Pharma cannot be sued and there are limitations to liability set up by the corrupt Vaccine Injury Compensation Fund. This collusion between Big Pharma and Our government is indeed a conflict of interest and against the general welfare of the American People. It is in essence, treason.

Dr. Geier explains that the flu is "the wrong thing to vaccinate against" because you have to keep re-vaccinating against it every year, unlike childhood infectious diseases, such as smallpox, that are only vaccinated for once.

However, many childhood vaccines have multiple doses, like the MMR, which has been proven to cause autism and threatens the medical mafia's cash cow. The Drug Trust spends billions to convince Americans that vaccines are safe and effective, but research and statistical data prove otherwise.

A study in the prestigious Journal of the American Medical Association (JAMA) provides data on deaths from infectious diseases over the last century.

When this data is compared with the introduction of children's vaccination programs we see that most vaccines for children have had little to no effect, and some may even be harmful.

Lawrence Wilson, MD

VACCINATION – THE WORST MEDICAL ABOMINATION

Vaccination began 200 years ago as an experimental life-saving medical tool. While it had some merit, today vaccination is one of the leading causes of disability among our children. Today, vaccines are not needed if one lives healthfully. They do not work well today. Also, the stray viruses they contain, along with the toxic chemicals they all contain, are a horror.

One out of every 68 children in America is autistic today. I speak with many parents and am tired of hearing the same story: “My child was fine until he or she received vaccines. Then he or she slowly or rapidly became withdrawn, stopped speaking, and mental development slowed or stopped”. When will our health authorities stop lying to the public about the problems of vaccines?

Warning: You will not get the truth from licensed doctors about vaccination because if they speak out about vaccines, they can lose their medical license and their livelihood. This is unfortunate, but true.....

<http://www.drlwilson.com/articles/VACCINES.08.htm>

Vaccines Did Not Save Us – 2 Centuries Of Official Statistics

This is the data the drug industry do not want you to see. Here 2 centuries of UK, USA and Australian official death statistics show conclusively and scientifically modern medicine is not responsible for and played little part in substantially improved life expectancy and survival from disease in western economies.

A detailed Contents listing of this article with each category of disease and related graphs appears after the Introduction.

Introduction..... >>> <https://childhealthsafety.wordpress.com/graphs/>

DR ISAAC GOLDEN

FACT CHECK:

Doctors will not give parents their personal guarantee in writing of the safety and effectiveness of the vaccines they wish to administer.

Vaccine manufacturers demand, and receive, Government protection against legal action arising from damage caused by their products.

Australia does not have a vaccine damage compensation scheme. The 20 developed countries that do have paid out literally billions of dollars in compensation for vaccine damage.

Sort-term damage is highlighted on the US Government's VAERS site: <https://vaers.hhs.gov/data/index>.

No comprehensive studies evaluating the long-term health of fully vaccinated and unvaccinated children have ever been published, thus long-term safety is unknown.

DESPITE THESE FACTS, Australian politicians from all parties have been convinced to economically penalise parents who have genuine concerns about the safety of vaccines, and to encourage others to socially ostracise these caring and informed parents.

INTRODUCTION

The issue of how we protect ourselves and our children against targeted infectious diseases (immunisation) is one of the most controversial in modern medicine. Many orthodox health authorities believe that vaccination is the most successful public health intervention ever undertaken, and it is true that many thousands of lives have been saved by vaccination. It is also true that definitive studies of the long-term safety of vaccination either have never been undertaken or if they have, they have never been published. This means that the

number of lives lost and long-term chronic illness caused as a result of vaccination has never been properly quantified..... >>> <http://www.homstudy.net/Research>

Given that there are so many medical experts and parents now questioning the safety and efficacy of vaccines and that the vaccine manufacturing business is BIG business and our bodies SHOULD never be the market place WITHOUT CONSCIOUSNESS, INTEGRITY, HONESTY AND TRUTH as their true ethos and motives the Australian government cannot and should not coerce ANY body regardless of their level of income to vaccinate. Instead why not spend money on INDEPENDENT research homeopathic vaccinations and performing TITER tests to check for level of immunity against diseases in a person. Why not? People are starting to ask their veterinarians for Titer tests instead of re-vaccinating their pets because people are seeing that the more they vaccinate the more sick their pets get.

WHAT IS A TITER TEST?

Titers are blood tests that check your immune status to vaccinations or diseases you may have received in the past. If you're titers results are positive, it means that you have adequate immunity to a particular infectious disease. Therefore, you do not need to get that particular vaccine..... >>> <http://www.bloodtiters.com/>

Yours Truly

Silvana Frassanito
