Subject: Halal certification

Hello I am emailing you to voice my concerns in regards to Halal certification. As an Australian I feel my freedoms are being removed from me. I did not and do not approve of Halal methods of slaughter as the Halal method is animal cruelty. I did not and do not approve of the amount of money being paid by me to purchase essential food items due to the Halal tax. I am finding it difficult to purchase Australian made food goods, this has been made all the more difficult now that Halal certification is on such food goods I would normally purchase.
