

Shared Equity Home Ownership

Pathways in Housing

National Affordable Housing Consortium

About the National Affordable Housing Consortium

- Not For Profit Charity Incorporated in 2008
- NAHC's mission is to address market failure in the supply of affordable housing
- Facilitated 3,300 new affordable homes in cities, towns and regional centres
- Further 300 new homes in delivery pipeline.
- Located in QLD, NSW and Victoria
- **NAHC is embarking on serious investment in Shared Equity Home Ownership as a key new business line directed towards fulfilling its mission**

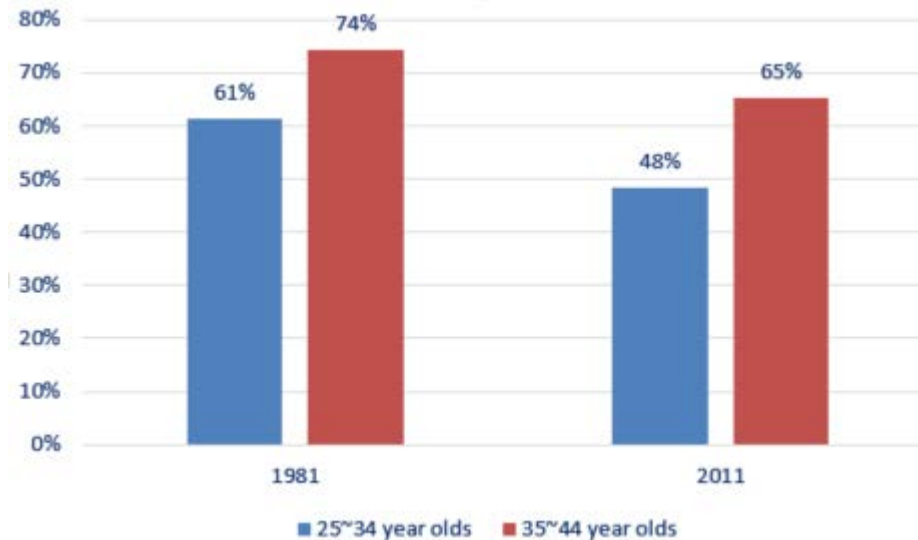

About the National Affordable Housing Consortium

- NAHC leverages strong partnerships with;
 - Developers
 - Financiers
 - Community Housing Providers
 - Government
- Advantages of partnership approach
 - Mutual respect of each parties expertise
 - Portfolio diversity: geographic, spread of projects
 - Mixed communities, integration, low concentration
 - NAHC investment is directed fully to affordable housing

Shared Equity in Perspective

- Period 1998 to 2011; change in home buying rates
 - 25–34 year-olds; 61.4% to 48.4%
 - 35–44 year-olds; 74.3% to 65.3%

- In 2014, first home buyers accounted for 11.8% of mortgage finance, the lowest on record

Source : AHURI Evidence Review 074 April 2015, and Positioning Paper 163

Shared Equity in Perspective

The fall in home ownership is due to a number of social factors and changes in lifestyle and preferences; e.g less job certainty, preference for inner city living, HECS debt, overseas travel, but

Barriers for willing homebuyers include;

- Lack of capacity to service a loan based on income (high housing price to income ratio)
- Inability to save a deposit while paying rent
- Only 5.5% of homebuyers received parental financial assistance towards a home in the last 10 years

Historically low interest rates currently translate to better borrowing capacity, but this is a risk if interest rates increase. So banks typically qualify at 7.25%.

Source : AHURI Paper 163

Shared Equity in Perspective

*Borrowing capacity will vary with individual circumstances and bank credit policy
Many key workers salary will qualify them for a loan between \$200,000 ~\$300,000,
but this does not meet real estate market prices
They will require a deposit of 10% ~20% which is difficult to achieve while renting*

Salary-The First 5 years

RANK	PROBATIONARY CONSTABLE	CONSTABLE LEVEL 2	CONSTABLE LEVEL 3	CONSTABLE LEVEL 4	CONSTABLE LEVEL 5
Annual Salary	\$65,059.00	\$67,515.00	\$69,967.00	\$72,420.00	\$73,651.00

**Borrowing capacity depends on individual circumstances, interest rates, deposit savings, bank credit policy and qualification rate etc*

Roles of Shared Equity Participants

- **NAHC**
 - Not for Profit, tax concession charity
 - Risk capital
 - Legal documentation, agreements, licences
 - Homebuyers; sales and marketing, qualification
- **Banks;**
 - comfortable with the concept and willing to lend on similar credit conditions as for normal home buyers
- **Developer;**
 - suitable entry level stock, diversity
 - Purchase price discount recognises volume and savings in sales and transaction costs
- **Government**
 - Revolving Fund or land contribution

Shared Equity Process

- The Home
 - NAHC identifies and qualifies homebuyer
 - Bank approves a home loan
 - Developer identifies suitable housing stock
- Purchase;
 - Developer provides a discount
 - Buyer finances 75% of value; standard home loan
 - Government commits revolving fund/land to value
 - NAHC commits revolving fund
- Term;
 - Homebuyer pays down bank mortgage
 - Homebuyer pays down NAHC equity after interest-free term
 - Proceeds shared in proportion to equity share when sold
 - Surplus proceeds reinvested in revolving fund by NAHC Charitable Entity

NSW Case Study:

Gosford
2 Bed Apartment
\$350,000

Wallis Creek, Hunter
3 Bed House
\$400,000

Airds, Campbelltown
4 Bed House
\$560,000

Current Situation - Open Market

Minimum Income Hurdle	\$104,000	\$115,600	\$162,000
Monthly Repayment hurdle to Qualify for a loan (7.25%), ignoring deposit requirements	\$2,600	\$2,890	\$4,050
Payments at current interest rates (5%)	\$2,110	\$2,340	\$3,280

Affordability Greatly Improved under Shared Equity

An Affordability Future Fund

\$1B program could assist 16,000~20,000 homebuyers
...In the first round alone

Assumptions:

- New Built 'first home owner' starter dwelling – NSW- \$400,000 ~ \$500,000
- Average Shared Equity Investment required \$100,000 ~ \$140,000
- Average Cost to Government of each SEHO \$60,000
- Average Developer Contribution 5% \$30,000
- Average NFP contribution \$30,000
- Potential value escalation over 5 years* = \$510,000 ~ \$638,000
- Total value of social equity held yr 1= \$2Billion +
- Total value of social equity held yr 5 =\$2.55Billion +

**Based on 5% annual escalation*

An Affordability Future Fund

\$1B program could assist 16,000~20,000 homebuyers

...In each subsequent round

\$1.275B available to
recycle into further
SEHO

Assuming 50% turnover in 5 years;
sale or buy-out by the homeowner

 = 1,000 Homes

First Home Grants compared to Shared Equity

FOHG	Shared Equity – Revolving Fund
One Off ‘Private’ Benefit	Long term community benefit retained via Revolving Fund – an ‘Affordability Future Fund’
FOHG scope is a blunt instrument	<p>SEHO can be targeted to specific groups and the level of social equity can be adjusted to different policy objectives eg</p> <ul style="list-style-type: none"> • Key workers • NDIS recipients [including targeted family support] • 10-15% of social housing tenants directly reducing State liabilities <p>The social equity stakeholding can reflect local market conditions for example it could be 30% in Sydney and 20% in Newcastle</p>
Government pays 100% = no leverage	SEHO will leverage NFP contributions, developer contributions, family contributions (NDIS) and could leverage State and even local contributions.
Cash is not always right for the fiscal circumstances	<p>Government can contribute cash or land.</p> <p>Land will be converted into its full market value as part of the SEHO process.</p>
FHOG too to bridge the deposit gap	No [or low] deposit required as banks are lending less than 80%

Program Focus

Status

- SEHO is held in a specific Charitable Entity [Developed] with Social Equity to be used for prescribed purposes only, and on an indefinite basis. ie Always recycled into affordable housing
- A Full set of Bank Ready / Buyer Ready documents have been prepared by NAHC through McCullough's Lawyers and Coopers Grace Ward.
- Banks and developers have been consulted and engaged
- A Pilot is underway

Priorities

- Focus on key workers, especially first home buyers
- Low concentration of shared equity buyers in any street or development
- Program; not a 'one-off' sales initiative:
 - Countercyclical benefits
 - Continuity/Volume of activity over time
- Revolving Fund concept
- Buyer risk of default designed to be no different to 'normal' buyers; buyers qualify for the actual amount borrowed using 'normal' bank criteria
- Suitable to dovetail with other Government programs
