

FRAMPTON FLAT PTY LTD

27 Wattle Street
Tullibigeal NSW 2669

30th January 2024

To Whom It May Concern

I am the owner operator of Frampton Flat Feedlot based at Tullibigeal Central NSW. We have been supplying Woolworths with beef cattle for slaughter for over 40 years. Our company has always had a great relationship with the livestock team working for Woolworths.

The livestock buyers are constantly in touch with our company regarding the cost of cattle, grain and other commodity markets. Our company is contracted three months in advance for the supply of cattle. Before contracts are issued and signed there is an open consultation between our company and the Woolworths livestock team. As each new contract is issued, it is our decision to accept or decline each contract with no undue pressure from Woolworths.

As a long term supplier and with a great understanding of the fluctuations of the cattle market at different times, we have always found Woolworths to be reasonably fair when issuing their new contracts.

Darren J Frankel
Managing Director
