Submission on National Radioactive Waste Management Bill

Cusack

From Mary

20/55

I strongly oppose the above Bill for the following reasons,

1.It completely ignores the statements and wishes of many of the traditional owners of Muckaty .

2.Members of the Senate Committee should visit Muckaty to discuss the Site with all the traditional owners ,as an open process, not secretive negotiations with a few selected people.

3. Section11 explicitly overrides any state or territory laws that would hinder site selection.

4.Section 12 eliminates Aboriginal and environmentali nterests.

5. Property rights are extinguished and local people have no right of appeal, all draconian.
