

To Whom It May Concern:

I am in favor of the native people of the Northern Territory having freedom to make decisions concerning their own well-being and future.

I am in agreement with COOPERATION NOT INTERVENTION.

Respectfully,

Sharon "Blue" Campbell

P.S. As a result of ten years of research for a novel I am writing, I have become very familiar with the long history of struggle and disappointments experienced by Australia's indigenous people. It is my hope that the Australian Government will make the right choice to empower the native people. The world is watching.
