

Dear Sir/Madam,

Please will you listen to people from around the World when we ask you to be reasonable. Aboriginal people of Australia are real people with feelings and an ancient culture that should be respected. The abuse that they are going through in the past, present and future isn't something that is necessary. It is led through a few peoples greed and selfishness. Aboriginals deserve to be listened to and their voice is spreading and getting louder. I (as many other people do) feel disgusted that this behaviour can still happen in the modern World. I am sure the Global community won't put up with this for much longer. Now is the time that the people who are making decisions should become conscious of the pain they are causing. I am sure they would be the first to cry out if they received the same treatment to their family and friends. I don't have any understanding of how people think they can get away with what they are doing, yet they seem to be. My name is Gary Burdett and I am deeply concerned and distressed English man.

Thanks for your time

Gary Burdett
