

To whom it may concern

From C.Q

My name is c.q, i am an Australian citizen, the bill of visa capping causes me concerns.

First of all, it is not good manner for the person who doing this capping bill. It would be a shame if it works.

Secondly, I am concerned about the bill for the reason of the mess of power. If the Minister of Immigration has such significant power, and it can be enforced on a particular community, and also is relating to the racial discrimination. It is more personal, makes the law lose the power. Feel like that it is not law anymore.

Moreover, the bill will damage the credits of Australia. On the May of 2008, Mr. Chris Evans told the reporter of Australia that Australia needed skilled workers, semi-skilled workers and unskilled workers. But since then, the Immigration policies have had sea changes. The increasing number of the private education sectors shut down as the backlash of the fickle Immigration policies.

This move is in contrary to the ethic of the Australian legal system. We can not do this.
This is very bad.

Under the circumstances, we need to stop the bill, and restore the credits of Australia.

Have to stop it.

Save everyone

God bless Australia.

No more mess.

Be fair. be justice. Come on, mate.
